

LIFTING CLAMPS

CLEVER GRIP

H-360-350-1021-000

Weight	11,5 kg
Max. load	350 kg
Clamping depth	140 mm
Min. range	10 mm
Max. range	360 mm
Optimal packaging	1 per box
Product dimensions	500 x 230 x 550 mm

GTIN 8718026803223

SMART GRIP

H-420-420-1021-000

Weight	13 kg
Max. load	550 kg
Clamping depth	140 mm
Min. range	10 mm
Max. range	420 mm
Optimal packaging	1 per box
Product dimensions	580 x 220 x 600 mm

GTIN 8718026806811

Smart-Grip is a mechanical grab suitable for handling plane and non-conical concrete elements, The compact and lightweight grip can be attached to a carrier (loading crane, mini-excavator etc.) by means of hoisting belts or chains. Thus, one person is able to operate the grab mechanically. The grab comes with two handles and is therefore also suitable for a two-man manual operation. The triangle guarantees a perfect grip.
