

### HI97115

# Marine Master Waterproof Wireless Multiparameter Photometer

Measure pH, Alkalinity, Ammonia, Calcium, Magnesium, Nitrate LR, Nitrate HR, Nitrite ULR, and Phosphate ULR

The HI97115 is a compact and versatile Marine multiparameter photometer designed to accurately determine pH, Alkalinity, Ammonia, Calcium, Magnesium, Nitrate, Nitrite, and Phosphate levels in aquariums and marine biology applications. The HI97115 is suitable for field and bench measurements.

The HI97115 can be used as a stand-alone photometer or can be connected to the Hanna Lab App with a compatible smart device via the integrated Bluetooth module. When connected, Hanna Lab App functions include measurement with the ability to add notes, data logging with extended storage capacity, data sharing, and the ability to create and save method groups.

HANNA nstruments | www.hannainst.com

#### Backlit LCD

The 128 x 64 pixel LCD allows for a simplified user interface.

#### Method and Parameter

Chosen parameter and method used are displayed along with the reading.

# Battery status indicator and auto-shut off

The auto-off feature automatically shuts off the meter after 15 minutes of inactivity in order conserve battery life.

#### Large cuvette size

The sample cell fits a round, glass cuvette with a 25 mm path length. The relatively long path length of the sample cuvette allows the light to pass through more of the sample solution, ensuring accurate measurements even in low absorbance samples. The cuvette holder features ridges to protect scratching of the optical path by the cuvette.

#### Virtual keys

#### Compact size

Measures 142.5 mm (5.6") x 102.5 mm (4") and only 50.5 mm (2") thick.

Menu available at the touch of a button

#### Dedicated help

A dedicated help key provides information relating to the current meter operation, and can be used at any stage in the setup or measurement process to show contextual help.

App Store is a service mark of Apple Inc., Google Play and the Google Play logo are trademarks of Google LLC. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.

### Waterproof and floating IP67 meter design

Option to select measurement location for better tracking consistency

## CAL Check<sup>™</sup> validation and calibration

Validate instrument performance at any time using Hanna® CAL Check cuvettes certified against NIST-traceable reference instrument(s). The CAL Check screen guides the user step-by-step through the validation process and user calibration.

GLP data displays the last calibration date.

#### Backlit LCD and on-screen help

Built-in reaction timer that ensures consistency between tests.

# On-screen tutorial mode with animations

The built-in tutorial mode guides users step-by-step through the measurement process. It includes all steps required for sample preparation, the required reagents, and quantities.

Tutorial mode can be enabled or disabled from the setup menu.

# Includes auto-data logging features to easily record water testing results

The instrument features a data autolog function to help users keep track of all measurements. Every time a measurement is made the data is automatically saved.

The data log can hold 200 individual measurements (data points). When the log is full, the instrument rewrites the oldest data point.

## Positive locking system

The Hanna positive-locking system ensures cuvettes are placed into the holder in the same position every time.

Specifications		HI97115 pH, Alkalinity, Ammonia, Calcium, Magnesium, Nitrate LR, Nitrate HR, Nitrite ULR, and Phosphate ULR	
	Range	6.3 to 8.6 pH	
	Resolution	0.1 pH	
Marine pH	Accuracy	±0.2 pH of reading at 25 °C	
	Method	colorimetric adaptation of the Phenol Red Method	
	LED	525 nm	
Marine Alkalinity	Range	0.0 to 20.0 dKH	
	Resolution	0.1 dKH	
	Accuracy	±0.3 dKH ±5% of reading at 25 °C	
	Method	Colorimetric Method	
	LED	610 nm	
	Range	$0.00 \text{ to } 2.50 \text{ ppm} (\text{as NH}_3)$	
	Resolution	0.01 ppm	
Marine Ammonia	Accuracy	±0.05 ppm ±5% of reading at 25 °C	
	Method	adaptation of the Salicylate Method	
	LED	610 nm
