- 1<sup>st</sup> Service at 50hrs
- 2<sup>nd</sup> Service at 200hrs
- Servicing after this is every 12 months or 200hrs

#### Daily operations check,

\*Takes about 10 Minutes

- Radiator Coolant
- Radiator screen for blockages
- Engine oil level
- Clutch Clearance

#### As Required Checks,

- Air filter Element
- Radiator Screen for blockages

AGRICULTURE

The buyer agrees that they are of sound mind, fit and able to be in control and operation of the tractor and attachments, the buyer will be aware of the environment that they operate the tractor and its operational surroundings.

The buyer will make the decision if he/she requires more formal training in operation of the tractor or attachments and will undergo a formal tractor license course at his/her own expense.

Tractor Warranty is transferable if the tractor is sold providing pre approval is obtained by Tannertrack in writing, please request a transfer of warranty form from us as we require to make sure the tractor is fit for purpose for the potential buyer.

Who can service my Tractor?

If you are competent in mechanical repairs, we are happy for the owner to service their own tractor, alternative we service onsite or a local service agent can be used.

We do not warranty damage due to improper service done by anyone other than Tannertrack.

We do require proof of service; we recommend keeping your records of oil and filters etc.

Also take a photo of you doing your service with your phone or camera and we love to keep in touch with our customers so send us the pic so we all have proof it's been done and it also gives us a chance to engage and point out items due at that service point that you may not be aware of and offer general advice on servicing of the tractor and attachments.
