

The ultimate portable and adaptable value USB headset for business professionals.

The Discover D312U is a value headset that allows you to connect to your USB and 3.5mm headset jack devices out of the box. Seamlessly switch from your computer calls or meetings and your cell phone. Simply unplug the 3.5mm jack from the headset adapter and connect to your cell phone. The D312U is lightweight, adjustable, comfortable and gives you clear audio for more productive calls!

Features & Benefits

Wearing style

Dual speakers so you can zone in on your calls.

Connectivity

Connects to computer and mobile phones with USB or 3.5mm ports.

Noise canceling mic

Reduces unwanted background noise so callers hear you, not the distractions around you.

Less clutter

Rather than using one headset for computer and one for mobile phone, the D312U works with both!

1 year protection

Within 1 years for any reason your D904 stops working, you're covered.

Foldable

Takes up less space when you bring the headset with you on the go.

Compatible with most softphone apps like...

- RingCentral
- Zoom
- Microsoft Teams
- Cisco
- Avaya
- 3CX

and more...
