

EVOLVE 65t

## Engineered to be the world's first UC-certified true wireless earbuds\*

### Professional-grade sound

Don't sacrifice the call quality you need when dealing with valued customers. The Evolve 65t delivers superior true wireless sound with 4-microphone technology, and are the only true wireless earbuds on the market with Microsoft Teams and UC certification. Take calls from your smartphone, or plug in the Bluetooth adapter to your PC or laptop and take calls from your softphone.

### All-day power. Always connected.

Up to 5 hours battery on a single charge, and up to 15 hours with the included pocket-friendly charging case. Capable of simultaneously connecting to two devices at the same time you are always available regardless of your location.

### Blocks out background noise

With multiple fitting options provide a snug in-ear fit. This not only keeps the earbuds in place, it also helps block out the ambient noise around you to help you focus. And with adjustable HearThrough settings, you can adjust how much background noise you want to let in.

### Customizable equalizer

Personalize the sound for calls and music – whether that's the tunes you play on your office commute, or the productivity-enhancing music you listen to when working. With the Evolve 65t you can tailor your sound experience with a customizable equalizer found in the Jabra Sound+ App.

Connects to:

\* See [Jabra.com/commercial-claims](https://www.jabra.com/commercial-claims)

### Third-generation technology. Trusted, reliable connection.

Experience third generation, proven true wireless connectivity for reduced audio dropouts. Your connection remains solid from the start of a call to its end.

### Digital Assistant-enabled. Voice commands made simple.

With the Evolve 65t you can instantly connect to Amazon Alexa, Siri®, or Google Assistant™\*\*, allowing you to get the information you need – whether that be setting appointments, finding nearby events, having messages read back to you, or checking the weather.
