

NOT TOO HEAVY, NOT TOO LIGHT, JUST RIGHT

3Bears Sewing Foam is a Flexible Polyurethane foam with a medium to firm density, that has been engineered to be easy to sew while still retaining its shape when used as a backing behind leather, vinyl and fabrics. The 100% Polyester Knit backing has superior stitch holding power and flexibility that allows it to follow contours without creasing, folding or tearing. In addition to these qualities are the antimicrobial and antibacterial treatment that gives the foam resistance to mould, mildew and fungal growth. There is no longer a need to worry about blemishes such as pink spot, especially in marine and humid environments.

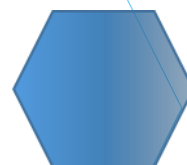

BENEFITS OF 3BEARS SEW FOAM

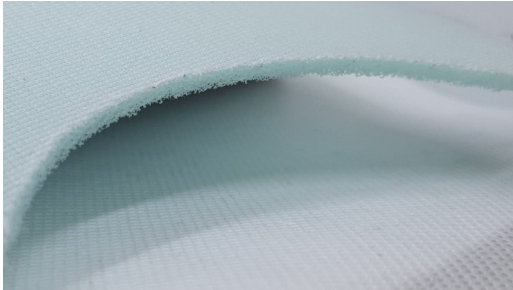

Superior stitch hold

Superior stitch definition

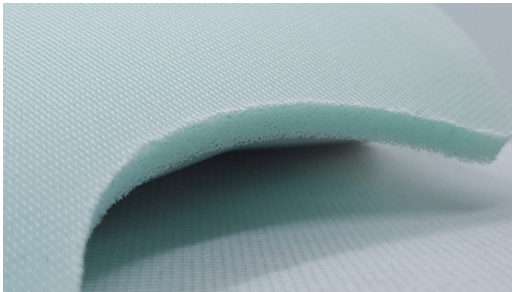

Will not harbour fungus or bacteria

Ideal for marine and high humidity environments
