GLADIATOR 7-DRAWER TOOL CABINET NAMED FINALIST IN 2022 PRO TOOL INNOVATION AWARDS

BENTON HARBOR, Mich. (September 26, 2022) - This week [Gladiator](#)[®] was recognized as a Finalist in the Pro Tool Innovation Awards (PTIA) Storage-Rolling Chests and Cabinets category for the [Premier 7-Drawer Modular Tool Storage Cabinet](#). Awarding the most innovative construction and outdoor power equipment industry products, the 10th annual PTI Awards shined a spotlight on the latest innovations from some of the world's top manufacturers. The award submissions were evaluated by a diverse team of judges including contractors, construction business owners, tradesmen and media professionals.

"Any product can undergo incremental changes, though Pro Tool Innovation Award winners and finalists tend to buck trends and bring much more to the table," said Kenny Koehler, editor-in-chief.

"They really deserve the recognition they get. We feel that business owners, builders, contractors and tradespeople can look to PTIA Award-nominees to locate the products that can increase productivity, help them make more money, and increase safety on the jobsite."

Available in three colors (silver tread, gray slate and red tread), the 7-Drawer Modular Tool Storage Cabinet provides exceptional gear and tool storage capacity. Each of the unit's seven drawers feature solid metal handles and double-sided wall construction that allow for each drawer to house upwards of 65 pounds. Plus, each drawer is cushion lined, making it an ideal space for storing and protecting small hand tools such as screwdrivers and wrenches alongside bulkier items. At two feet deep, the 7-Drawer Tool Storage Modular Cabinet sits atop a set of locking caster wheels, allowing for mobility and easy access to hand tools virtually anywhere.

"We launched the 7-Drawer Cabinet to provide consumers with sturdy and mobile tool storage," said Toni Sdao, General Manager of Gladiator. "We are honored to be recognized as a finalist for the Pro Tool Innovation Awards and are proud to offer this standout product alongside our core garage storage and organization solutions."

After countless hours of considering several hundred of the most innovative power tools, hand tools, fasteners, products and accessories on the market, the PTIA judges eventually chose winners and finalists based on a combination of key factors. Products won based on their ability to demonstrate

either innovative features, advanced power delivery, groundbreaking ergonomics, technological advancements, advancements in jobsite safety, or above-average value. The 2022 Pro Tool Innovation Award Finalists represent the companies and products driving progress and advancement in the construction, landscaping, and manufacturing industries.
