

Install 2" safety clip here and on all four sides.

**# 4876M
Four Sided
Air Diverter**

INSTALL SAFETY CLIPS

Four pieces of a 2" Safety Clip are included with each filtered air system. Install on all four sides, attaching to ceiling grid and outside flange of the Four Sided Air Diverter.

Easy install direct to ceiling grid system using 4 strong preinstalled magnets.

Stop cold air from blowing down. Redirect the air from your air diffusers to blow perpendicular to the ceiling. 4 sides for even air distribution. Includes 4 preinstalled magnets for easy mounting.

- Four-way airflow. Reduces cold and hot spots while creating a more uniform ambient temperature throughout the room.
- Hangs only 2.75" from the ceiling; discreet enough for use in an office, restaurant, hotel or retail setting.
- Installs with ease on any 24" x 24" drop ceiling with a T-Bar grid system.
- Installs on most 24" x 24" drop ceiling with a T-Bar grid system. NO tools required. All parts included. Outlet holes measure 8-1/4" long x 1-1/2" wide.

All parts included. Outside dimensions: 24.5" x 24.5" x 2.75"
