Surfprep Sanding

Simple Sanding Solutions

Air Sander System Kits

SURFPREP 3" X 4" AIR SANDING SYSTEMS KIT

- 2015 Visonary Award Winner, the industry standard for product innovation & productivity in sanding
- Simple, easy to operate, molded composite body for long life durability, comfortable grip
- Powerful 10,000 RPM X 3mm orbit provides rate of cut for both level & finish sanding
- Highest quality precision bearings & hardened steel motor assembly
- Consistent sanded finish, no 'crossover scratch' or 'fish hook' marks when used with SurfPrep Foam/Film abrasives
- Reaches effortlessly into tight corners, sanding all areas completely with 12' highly flexible red ball swivel air hose, saving hundreds of dollars annually on costly air leaks by eliminating metal coupler/heavy rubber hose connections
- Large variety of SurfPrep Foam/Film Abrasives for prep to finish sanding
- Pad Saver enhances life & protects backup pad. Soft Interface Pad for level sanding or machine marks on profiles

Item Number	Description	Price
SPSS3X4	No Vacuum	\$345.00
SPSS3X4CV	Vacuum Compatible	\$360.00
SPSS3X4SGV	Self-Generating Vacuum	\$407.00

Includes the following:

- Part # SPS3X4 – SurfPrep 3" X 4" 10,000 RPM Orbital Sander (Hook & Loop Backup Pad)
- Part # SPVPFOAM3X4 – 3" X 4" Foam Variety Pack
- Includes the following: 2 each of SurfPrep's most popular grits:
 - (2) SPRF5R060 – Medium 5mm (120-150 Scratch)
 - (2) SPRF5R100 – Fine 5mm (220-240 Scratch)
 - (2) SPRF5R150 – Very Fine 5mm (280-380 Scratch)
 - (2) SPRF5R180 – Super Fine 5mm (450-600 Scratch)
 - (2) SPRF10R046 – Course + 10mm (80-100 Scratch)
 - (2) SPRF10R060 – Medium 10mm (120-150 Scratch)
 - (2) SPRF10R100 – Fine 10mm (220-240 Scratch)
 - (2) SPRF10R150 – Very Fine 10mm (280-380 Scratch)
 - (2) SPRFHRO60 – Medium 1/2" (120-150 Scratch)
 - (2) SPRFHRR100 – Fine 1/2" (220-240 Scratch) (2)SPRFHRR150 – Very Fine 1/2" (280-380 Scratch)
 - (2) SPRFHRR180 – Super Fine 1/2" (450-600 Scratch)
- Part # SPVPFILM3X4 – 3" X 4" Film Variety Pack Includes the following: 5 of each grit:
 - (5) SP3X4HLF080 80 grit
 - (5) SP3X4HLF100 100 grit
 - (5) SP3X4HLF120 120 grit
 - (5) SP3X4HLF150 150 grit
 - (5) SP3X4HLF180 180 grit
 - (5) SP3X4HLF220 220 grit
 - (5) SP3X4HLF320 320 grit
 - (5) SP3X4HLF400 400 grit
- Part # SP12H – SurfPrep 12' Swivel Air Hose & Tool Oil (SPTOIL)
- Part # SPSS3X4- SurfPrep 3" X 4" Pad Saver
- Part # SPIP3X4- SurfPrep 3" X 4" Interface Pad

Tech Tip: This kit is recommended for initial purchases or first-time users.

Surfprep's Sanding System Kits are the best way to start using our products. This is because you choose which sander works best and it includes the most popular abrasives and accessories to go along with your tool. Below you will need to choose the size of sander that best fits your needs. (*Hint... the most popular is the 3" X 4" with woodworkers).

Surfprep Sanding

Simple Sanding Solutions

Trident & Storm Self-Generated Vacuum Air Sanders

5" & 6" Random Orbital Sander

- Low profile for ease of use on any substrate
- Durable rugged composite housing with recessed throttle lever
- 1.9 pounds of solid performance. Designed for excellent finish requirements, minimizing operator fatigue
- Powerful Industrial grade .28 HP 12,000 RPM Motor Hardened steel motor cylinder, upper/lower end plates w/ sealed bearings
- Long life full floating rotor 360° rotational exhaust grate 3/32" & 3/16" RO
- All OEM parts in stock and available

3" x 4" Orbital Air Sander

- Low Profile Compact Footprint Design for Excellent Control & Ease of Sanding
- Durable Rugged Composite Lightweight Housing Ergonomic Comfort Grip
- Powerful Industrial Grade .24 HP 10,000 RPM Motor Hardened Steel Motor Cylinder, Upper/Lower End Plates w/ Sealed Bearings
- Long Life Full Floating Rotor
- Great for both Prep & Scuff Sanding 1/8" Orbit
- All OEM Parts in Stock & Available

SurfPrep 5" Trident Sander Hook and Loop - 12,000 RPM

Item Number	Random Orbits	Type	Price
SPTS5HL316SGV	3/16"	5-Hole Hook & Loop Backup Pad	\$340.99

Surfprep Sanding

Simple Sanding Solutions

Electric Ray – Electric Sanders

SurfPrep 3" X 4" Electric Sander

- Integrated “downforce overload system” Plugs directly into standard 110-volt outlets
- Computer board completely protected with patented rubberized seal preventing environmental contamination
- Patented spindle bearing fan enhances life by keeping the motor and bearings at a lower temperature
- Available in Central Vacuum which connects to a standalone vacuum system
- 3mm orbit
- Three operational speeds: 4,000, 7,000 & 9,000 RPM

SurfPrep 5" Or 6" Electric Sander

- Integrated “downforce overload system” Plugs directly into standard 110-volt outlets
- Computer board completely protected with patented rubberized seal preventing environmental contamination
- Low-profile design with ergonomic hand grip for enhanced control and comfort for both right and left-handed operator 3/16” and 3/32” orbits
- Four operational speeds: 4,000, 7,000, 9,000 & 10,000 RPM

Central Vacuum Sanders - Variable Operating Speeds

Surfprep Sanding

Simple Sanding Solutions

LED Inspection Light

The warm 5,500 to 6,000K light temperature is closer to daylight, which is better for color rendition. The perfectly smooth beam quality and low level illumination make defects 10X more visible. The lenses keep the light on the table and not in the eyes of the operator.

Dimmable

This dimmable LED light bar controls brightness and generates 3,500-4,500 lumens with flawless beam quality from each LED light. It covers the entire working surface with even, high intensity light. You can run 2 light bars in sequence at 60 total watts used per bar. Will operate 30,000 - 50,000 hours.

Item Number	Description	Price

Surfprep Sanding

Simple Sanding Solutions

PREMIUM FOAM ABRASIVES

Grut/Scratch, Densities & Thicknesses

Foam abrasives are ideal for a multitude of applications and have greater efficiency, speed and effectiveness when compared to traditional sandpaper sheets. With today’s technology in abrasive grains, flexible adhesives, foam densities and thicknesses SurfPrep foam abrasives are the ultimate alternative to conventional sandpaper.

Description	Finish/Scratch
Coarse	60-80
Coarse +	80-100

ABRASIVES

Disclaimer: All pricing is valid as of 2/1/2021 but is subject to revised pricing at any time. Prices shown are for reference purposes only. Actual pricing is listed on the website and is subject to revised pricing from what is shown.

Foam Abrasives, Screen Abrasives, Paper Discs, Film Discs, Cut Sheets, Non-Woven

Tech Tip: Foam Abrasives are best used for sealer sanding or for very profiled contoured work pieces. Use 5mm for less contoured pieces, 10mm for medium contoured pieces, 1/2" for very contoured pieces.

Red Aluminum Oxide Foam Hook & Loop Pads are an excellent choice for preparing any surface that requires soft flexibility in order to ride over profiles so as not to cut or burn through lines or finishes. A great choice by cabinet makers who have challenges sanding or polishing the joint location of molding on a miter door. This pad will not load or pill.

Foam Abrasives

3" X 4" 5MM - No Holes

Item Number	Description	1 Box
SPRF5R036	Coarse (60-80 Finish/Scratch)	\$24.38
SPRF5R060	Medium (120-150 Finish/Scratch)	\$24.38

Surfprep Sanding

Simple Sanding Solutions

Tech Tip: Paper Abrasives are best used for raw wood prior to staining.

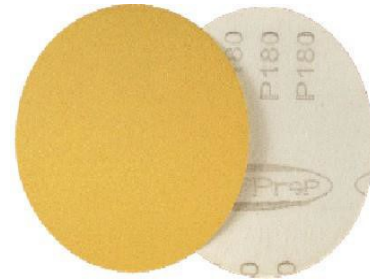

Paper Backed Abrasives Hook & Loop (H&L) Aluminum Oxide 100 Sheets/Box SurfPrep's blended paper backing provides for enhanced support of grain and edge-wear, our premium abrasive grain in an open coat construction provides a true, consistent & uniform scratch. Innovative 'load-free' coating provides for a fast rate of cut and longer life.

Non-Woven Abrasives

Tech Tip: Non-Woven Abrasives are very similar to "Scotch-Brite".

Non-woven discs & pads are 3-dimensional and highly flexible. The flocked backing is to be used on SurfPrep Sanders with Hook & Loop backup pads (H&L). No vacuum holes are needed for vacuum sanding, the substrate will suck through abrasive and flocking.

SurfPrep R.A.D. Pads

Disclaimer: All pricing is valid as of 2/1/2021 but is subject to revised pricing at any time. Prices shown are for reference purposes only. Actual pricing is listed on the website and is subject to revised pricing from what is shown.

SurfPrep's focus is to learn every single day. This means we are out in the field with professionals who focus on sanding all year long. We learn what woodworkers need and we invent new products that bring value to a company. We have innovated a new hand sanding abrasive that is made in the U.S.A. that will outperform and outlast anything else on the market. With this, we created the R.A.D. Pad (Revolutionary Abrasive Design). The R.A.D. Pad is unlike the industry standard 9"X11" abrasive sheets. The foam backing uses the same technology as our Visionary Award-Winning Foam Backed Abrasives but gives the user an option for hard to reach areas where a tool is not always the best option. Revolutionary Abrasive Design Size: 5.5" x 4.5" x 3/16" Thick Made in the U.

Surfprep Sanding

Simple Sanding Solutions

SurfPrep™ MATTE

SOLID SURFACE SANDING STEPS

- Choose either an Electric or Air SurfPrep Vacuum Sanding System in a 3/32" or 3/16" random orbital pattern.
- Begin sanding with the sander flat against the surface, then release the throttle lever once removed from the surface to prevent swirl marks.
- Sand in an East to West, North to South pattern, overlapping the previous stroke followed by clockwise rotational circles to ensure uniform finish.
- To ensure an optimal finish and a dust free environment, it is highly suggested a complete vacuum system is used. Uncollected dust creates an abrasive effect and will leave scratches, especially on darker surfaces.
- If necessary, clean between sanding steps with a microfiber towel.
- Install a SurfPrep LED Inspection Light (SPIL-24 or SPIL-40) to ensure uniform sanding across the surface.

Surfprep Sanding

Simple Sanding Solutions

SurfPrep™ SEMI-GLOSS

SOLID SURFACE SANDING STEPS

- Choose either an Electric or Air SurfPrep Vacuum Sanding System in a 3/32" or 3/16" random orbital pattern.
- Begin sanding with the sander flat against the surface, then release the throttle lever once removed from the surface to prevent swirl marks.
- Sand in an East to West, North to South pattern, overlapping the previous stroke followed by clockwise rotational circles to ensure uniform finish.
- To ensure an optimal finish and a dust free environment, it is highly suggested a complete vacuum system is used. Uncollected dust creates an abrasive effect and will leave scratches, especially on darker surfaces.
- If necessary, clean between sanding steps with a microfiber towel.
- Install a SurfPrep LED Inspection Light (SPIL-24 or SPIL-40) to ensure uniform sanding across the surface.

Surfprep Sanding

Simple Sanding Solutions

SurfPrep™ HIGH-GLOSS

SOLID SURFACE SANDING STEPS

- Choose either an Electric or Air SurfPrep Vacuum Sanding System in a 3/32" or 3/16" random orbital pattern.
- Begin sanding with the sander flat against the surface, then release the throttle lever once removed from the surface to prevent swirl marks.
- Sand in an East to West, North to South pattern, overlapping the previous stroke followed by clockwise rotational circles to ensure uniform finish.
- To ensure an optimal finish and a dust free environment, it is highly suggested a complete vacuum system is used. Uncollected dust creates an abrasive effect and will leave scratches, especially on darker surfaces.
- If necessary, clean between sanding steps with a microfiber towel.
- Apply pea-sized drops of polish across the face of a wool polishing pad.
- Operate electric polisher between 1200-1,400 RPM. Approach the surface at a 5 degree angle with the weight of the polisher until desired sheen is achieved. Stop the tool before removing from the surface. Finally, wipe the surface with a clean microfiber towel.
- Install a SurfPrep LED Inspection Light (SPIL-24 or SPIL-40) to ensure uniform sanding across the surface.
