

RING SIZE GUIDE

Before measuring your ring size, make sure this guide is printed on US Letter size and scaled to 100%. To check the accuracy position a credit card on the line inside the circle chart below or place the correct coin over one of the marked ring sizes. If they line up, you're all set.

OPTION 1: Measure By Matching

To find your ring size, use an existing ring that fits you well. Match the inside of that ring with one of the circles below. When your ring has been placed on the right size, you should see only the white circle. If your ideal fit falls between two sizes, we recommend choosing the larger size.

OPTION 2: Measure with the Ruler

Cut out the ruler, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end through the slit. To make sure the ring will fit comfortably, we suggest also measuring your knuckle. Select a size that goes on and off your finger easily.
