WHAT WE DO

IntegrITEA means organic, good-for-you, great-tasting TEA.

We support sustainable agricultural practices, provide you with antioxidants, and help support your active lifestyle.

ORGANIC

Any chemicals sprayed or worked into the soil of tea, herbs & spices brews directly into the cup of tea you drink. Trying to rinse these ingredients results in starting the oxidation phase and can drastically alter the tea.

IntegrITEA is selective by only selling USDA Certified Organic tea that does not contain these chemicals. We operate with the utmost integrity in our sourcing, blending and manufacturing processes to provide a pure organic cup of tea.

GOOD FOR YOU

All of our tea promotes living life to the fullest and supporting sustainable agricultural practices. Our tea provides antioxidants and nutritional value to help support a healthy and energetic lifestyle.

GREAT TASTING

IntegrITEA finds the best tea from all over the world. As an organic craft tea company that provides exceptional quality, our name sums up what we are all about, integrity.
