A Few From  
Our Collection

# Timeless Teak Furniture, Treasured For Generations

## It started with a bench...

Our chairman Robert Bowden bought his first teak bench 48 years ago. It is still in loyal service outside our showroom and has never seen a drop of furniture oil.

And from that very first piece, an exceptional collection of beautiful teak furniture has grown.

As experienced masters of our craft, we practise the very best in traditional techniques coupled with innovation. Every day we produce products beloved by our customers that are a testament to our high standards.

### Family Business

We are an independent, family run company built on integrity and trustworthiness. For over 25 years our dedicated team has been treating you, our customers, as part of that family.

### Our Products

We lovingly create our furniture ranges from the ground up - designing, material sourcing and crafting beautiful, practical items to help our customers enjoy the great outdoors for years to come.

### Sustainability At Heart

Trees are one of the planet's most valuable resources - and we treat them as such. All of our wood is plantation grown, allowing you to have peace of mind when it comes to sustainability.

### Our Customer Service

We pride ourselves on the service and expertise of our team. If you have any questions or would like any advice please give us a call and one of the team will be happy to help.
