# Introduction

Welcome to Gilbert Netball Teamwear Brochure. Our Teamwear service is available across all of the Grays sports ranges as well as Gilbert Netball, including Gilbert Rugby, Gray-Nicolls Cricket and Grays Hockey.

The Netball teamwear range offers a combination of high performance fabrics in conjunction with a comfortable and functional fit to meet players and teams kit requirements at every level. This means you can design and wear kit for your team developed by one of the netball world's leading sport-specific match, training and performance brands.

We have dedicated teams in our various design departments who will ensure you receive the highest standard of expertise and technical support throughout the entire process. At home and abroad; manufacturers, embroiderers, printers and a global network of distributors are just a phone call away.

As well as a portfolio of International, elite and premier associations and clubs such as Netball Jamaica, Netball Scotland, International Umpires Association, Northern Thunder and Yorkshire Jets, we also supply kit to teams such as A P Saints, Oldham and Glasgow to name but a few.

For further information or for a copy of our latest Teamwear brochure, please call us on 01580 883120.

**160th Anniversary**

# Sublimated Style!

A full range of our netball dresses, tops, skirts, skorts and shorts can be customised to co-ordinate your team's colours.

Club & sponsor logos can be added at the same time as players names and numbers on sublimated items at no extra cost.

For teams who require complex printed graphics, Gilbert Netball offer high-performance sublimated items. Our design team will work with you to create the design that is right for you.

Gilbert netball dresses are made from high quality stretch fabric with moisture control to wick sweat away and help to keep you dry and comfortable. Velcro attachments are placed front and back for the addition of patch bibs with court position.

## Elite Dress

# Custom Balls

**Minimum Order Quantity:** 25  
**Lead Time:** 10 weeks by Air freight  
 14 weeks by sea freight from order acceptance.

Gilbert Netballs can be made to order in your chosen colours. Your logo, sponsors logo and number can be added.

## Spectra Match Ball - Made To Order

High quality match/training ball suitable for use on any surface.

**SIZES:** Available in size 4 or 5

### PANEL COLOURS

The complete panels of the Spectra Match Ball can be printed in any solid colour you like. For example the panels could be printed entirely pink with the 'wave design' printed over the top. This can be achieved but is inadvisable for balls that are to be used on court because the ink affects the grip on the surface of the balls.

### PANEL COLOURS

The 'wave design' on the Spectra Ball panels can be printed in any solid colour you like. Please choose 1 - 3 colours for your design.

### LOGO COLOURS

Up to 8 solid colours can be chosen to print your logo in the position shown on the ball opposite.

The example shown here has been printed with 3 colours.

The logo shown here has been printed in 2 solid colours.

Please choose 1 - 3 colours for the 'wave design' and up to a maximum of 8 colours to print your logo, or sponsors logo in the position shown.

Size 5 Code: 283085  
 Size 4 Code: 283065

## Pulse Training Ball - Made To Order

High quality match/training ball suitable for use on any surface.

**SIZES:** Available in size 4 or 5.

### PANEL COLOURS

The complete panels of the Pulse Match Ball can be printed in any solid colour you like. For example the panels could be printed entirely pink with the 'wave design' printed over the top. This can be achieved but is inadvisable for balls that are to be used on court because the ink affects the grip on the surface of the balls.

### PANEL COLOURS

The 'wave design' on the Pulse Ball panels can be printed in any solid colour you like. Please choose 1 - 3 colours for your design.

### LOGO COLOURS

Up to 8 solid colours can be chosen to print your logo in the position shown on the ball opposite.

The example shown here has been printed with 4 colours including the light green in the centre of the Jamaica Netball logo.

The logo shown here has been printed in 4 solid colours.

Please choose 1 - 3 colours for the 'wave design' and up to a maximum of 8 colours to print your logo, or sponsors logo in the position shown.

- Product dispatched within days.

# Order Procedures

Below we have laid out clearly the processes you will experience and the requirements that you will need to fulfil in order for us to quickly and accurately action your teamwear order. Each option has different complexities and requirements, which are detailed below. Throughout the process, your local Gilbert representative and the design team will make sure that you are kept up to speed at every stage of the production process prior to delivery.

**For more detailed information, to place an order or to discuss a specific requirement call 01580 883120.**

## OPTION 1

### SUBLIMATED TEAMWEAR

Our team will work with you, creating a series of design options for you to choose from. They will guide you through the entire process making sure that you are kept informed at all times.

#### 1. Design consultation

You can choose a set design or we can create a new design and/or work with you, using your existing strip as the basis for your teamwear design. If you would like us to develop a completely new and unique design, there may be an extra charge.

#### 2. Supply crests and logos in digital format and advise quantities and personalisation

All artwork for crest/logos and sponsor logos must be supplied in digital format; preferably vector EPS files, PDF, AI/CDR formats or a DST file for embroidery. If these files are not available, there may be a re-draw charge. If you require personalisation (e.g. numbers/player names/initials) please send us written details for each size of garment you require.

#### 3. Approval of Final Digital Proof and Proforma

Once you have agreed the design and logos, we will ask you to approve a Final Digital Proof ("FDP") and a Proforma. The FDP shows you the garment, with all logos/crests, the quantity required by size and any personalisation required. The Proforma will show the price, payment terms and the email address we will use when we need to contact you. It is important that both documents are checked carefully.

#### 4. Order Acceptance

On receipt of your approval (and if required your payment/deposit) we will accept the order and advise you of the expected delivery date.

#### 5. Pre-production checks

Prior to starting production we will e-mail you two sample images to make sure the factory has properly understood your order. Production will be held until we receive your approval to avoid delaying your order, we ask that you e-mail your approvals within 3 days of receiving each image. The first will be the factory proofs showing the sublimated colours and design. The second will show the detail of your logos. Please check each image very carefully as the designs you approve will be what is made. For a charge, if you wish to approve an actual physical "factory proof" rather than approve an e-mailed image, you should add 2 weeks to the standard lead-time. If you wish to approve a physical sample of the made up garment, you should add 3-4 weeks to the standard lead-time. Please allow a further 3-4 weeks from the time you confirm any further minor changes if you wish to receive another made up sample.

**Lead Time Guide - 8 weeks** from order acceptance

The finished dress is worn by Lynsey Gallagher of Scotland

#### Sublimated Kit

Sample early stage design template is prepared for customer approval.

#### Sublimated Kit

Sample 'Factory Pattern' proof

## OPTION 2

### MADE TO ORDER ("MTO") TEAMWEAR

The simplest way to create teamwear in your own colour combination.

#### 1. Select MTO garments and choose colours

Tell us the garment code (ends with an S) of the garment you would like us to make and then choose from the MTO colours offered for that garment. We have standardised the names of colours across our range to help you choose garments that are made in similar colours. For example, if you are ordering a garment in "RED" it will be a similar shade of red to another garment available in "RED" but a garment with a different name; e.g. "MARS RED" or "SCARLET" will be a different shade. If ordering garments with different names, we recommend you ask us to show you swatches before you place your order. If you are looking for colours to be very consistent across garments, we recommend you don't order garments with different colour names.

#### 2. Supply crests and logos in digital format

All artwork for crest/logos and sponsor logos must be supplied in digital format; preferably vector EPS files, PDF, AI/CDR formats or a DST file for embroidery. If these files are not available, there may be a re-draw charge. If you require personalisation (e.g. numbers/player names/initials) please send us written details for each size of garment you require.

#### 3. Approval of final digital proof and proforma

Once you have agreed the design and logos, we will ask you to approve a final digital proof ("FDP") and a proforma. The FDP shows you the garment with all logos/crests, the quantity required by size and any number or name. The Proforma will show the price, payment terms and the e-mail address we will use when we need to contact you. It is important that both documents are checked carefully.

#### 4. Order Acceptance

On receipt of your approval (and if required your payment/deposit) we will accept the order and advise you of the expected delivery date.

#### 5. Pre-production check

Prior to starting production, we will e-mail you an image of each embellishment sample to make sure the factory has properly understood your requirements. Production will be held until we receive your approval. To avoid delaying your order, we ask that you e-mail your approval within 3 days of receiving the image(s). Please check each image very carefully as the embellishment you approve will be produced on your teamwear.

**Lead Time Guide - 8 weeks** from order acceptance.

## OPTION 3

### EMBELLISHMENT OF STOCKED ITEMS

The quickest way to create teamwear with your identity.

#### 1. Approval of embellishments

Select the garments you require with size and quantity.

#### 2. Supply of all crests and logos

Before we can accept an order for embellished stocked items, we need to get your approval for each embellishment we are to supply. If you want us to make garments with a new crest/logo, you need to send details in digital format; preferably vector EPS files, PDF, AI/CDR format or a DST file for embroidery (if these files are not available there may be a re-draw charge). To prepare the right embellishment detail, we also need to know for each garment you require: the product code (Stocked garments end with a +), the specific colour name, the expected range of sizes and what personalisation (e.g. numbers and player names/initials) is needed. It is not necessary to supply the exact quantities and personalisation by size at this stage but it will speed the process if you can. We will then send you an image of sample embellishments for your review and approval. We can advise current stock levels at any stage of the process but we can only confirm stock availability once the order is accepted. Samples of stocked items can be supplied but they are chargeable to you. They will be credited 100% if returned within 2 weeks and in perfect re-saleable condition. If returned samples can't be resold (eg. missing tickets/packaging), or are returned late, we will not be able to credit 100%.

#### 2. Check all garments are the correct sizes before embroidery

Once you are happy with your embellishments and told us what you want, we will check that there is stock and then ask you to approve a final digital proof ("FDP") and a proforma. The FDP shows you the garment with all logos/crests, the quantity required by size and any personalisation (e.g. numbers and player names/initials). The Proforma will show the price, payment terms and the contact e-mail address. It is important that both documents are checked carefully.

#### 3. Order Acceptance

On receipt of your approval (and if required your payment/deposit) we will accept the order and advise you of the expected delivery date. Stock availability cannot be confirmed until the order is accepted, so to avoid the risk of stock-outs we ask that you approve the PDF/Proforma and make any required payment as quickly as possible.

**Lead Time Guide - 2-4 weeks** from order acceptance depending on time of year.

## OPTION 4

### STOCKED ITEMS (no embellishment)

Order garments from our stocked range without any embellishment for the quickest delivery.

**Lead Time Guide - 1 week** from order placement subject to stock availability and credit.

#### Customised Kit

Sample early stage design template prepared for customer approval.

#### Embellished Stock Items

Sample early stage design template prepared for customer approval.

# Embellishment Services

A complete embroidery and printing service is available from Gilbert for you to personalise your garments. Please speak to your Gilbert representative for more information.

## 1. PRINTING

Digital printing services are available for your crest and sponsor's logos.

- Please supply vector images of the crest or logo in EPS, PDF or AI / CDR formats where possible.
- Whilst J-Pegs can sometimes be used, there will be a logo redraw charge if we cannot use the format supplied.
- We will apply text in Arial Bold unless you advise on alternative fonts.
- We will use Pantone solid coated colour references supplied by you. If not available, we will match the colours as closely as we can from the vector designs supplied.
- We will e-mail an image of a printed sample for your approval.

## 2. NUMBERING, NAMES AND INITIALS

- For personalisation we will use Arial Bold font in black and white unless you request an alternative.
- Font sizes have been standardised as noted below in order to fit our garments.
- Please supply by garment size full details of the name, number and initials required.

1 2 3 4 5 6 7 8 9 0  
A B C D E F G H I J

Numbers - 12/15/18cm

Names - 2.4/4cm

Initials - 2/3cm

## 3. EMBROIDERY

Embroidery of your crest and sponsors logos is available if preferred.

- If the logo/crest has already been set up, please supply the embroidery DST file with run sheet (specific thread colour sequence).
- If the logo/crest has not been set up please supply the correct vector images in any of the following formats: EPS, PDF or AI/Cdr. There is set-up charge to create a DST file.
- Please advise size of logo and how they should appear on dark and light garments.
- Please advise Madeira thread colours if known, if not, standard Gray-Nicolls colours will be used.
- We will e-mail an image of your actual embroidery for your approval.

## 4. FABRIC SUITABILITY

Please note that some fabrics in the Gray-Nicolls range work better with printed embellishment rather than embroidery. We will be happy to advise you on the most appropriate application method for each garment chosen.

### PLEASE NOTE:

Gilbert cannot accept responsibility for the unauthorised use of any third party logos or images. Gilbert reserve the right to refuse to apply any name or logo that we consider to be offensive or unsuitable.

# Embellishment Positions

## MATCHWEAR - DRESSES

All Gilbert match dresses can be branded as shown below.

## MATCHWEAR - SKIRTS AND SKORTS

All Gilbert skirts and skorts can be branded as shown below.

## TRAINING WEAR - JACKETS

All Gilbert training tops can be branded as shown below.

## TRAINING WEAR - TROUSERS

All Gilbert training tops can be branded as shown below.

### PLEASE NOTE:

For MTO hoodies, fleeces and formal shirts only, the Gilbert brand may be applied using a tonal colour in keeping with the garment. This is the only exception from the standard black / white application. Other logos may be added to the garments as design features, such as logo tabs sewn into the seams, or logos highlighting technical features of the garment.

# Glossary of Fabric Terms

## WARMTH

### G-Base 705

This fabric is designed for use in our base layers. It is made of synthetic materials which are designed not to absorb moisture but are fantastic at transporting it away from the skin. Wicking (a capillary action) is the process of drawing perspiration away from the skin through a material. Once the perspiration is drawn away from the skin, it can evaporate without having a cooling effect on the body.

## COMFORT

### G-Com 700/705

A lightweight woven fabric, ideally suited for leisure-wear styles in a range of climates. Thanks to a soft peach-like feel specifically selected for track suits, this fabric is extremely popular with our professional athletes.

### G-Com 500/505

A more durable and traditional woven fabric also featuring a soft peach-feel with a matt finish.

### G-Com 400/405

Incredibly lightweight fabric ideal for fast paced high intensity training.

### G-Fleece 500/505

A traditional fleece fabric with excellent quality and weight. An attractive smooth face with a brushed reverse, offers superb comfort and warmth.

### G-Fleece Stretch 800/805

A versatile layer to keep you warm with moisture control finish to wick sweat away to help keep you dry and comfortable. The stretch allows the garment to move with you to keep you comfortable and performing at your best.

### G-Fleece Stretch 600/605

A lighter weight layer that also offers warmth and moisture control and excellent stretch properties for outstanding ease of movement and comfort both off court and in general use.

## LIGHT WEIGHT

### G-Lite 700

A light-weight mesh that features a honeycomb construction with a softer, lighter feel. It has excellent drying properties for added comfort. Suitable for training and leisure needs.

### G-Lite 600/605

An extremely light-weight, soft-touch fabric featuring a highly breathable construction that allows moisture vapours to flow through. This acts to wick perspiration away from your skin, hence minimising perspiration and keeping your body cool and dry.

## THE RIGHT TEMPERATURE TO WASH CLOTHES

The golden rule, before you start any load of laundry, is to check the care labels on all your clothes. This will give you an idea of the absolute maximum temperature you can wash your garments, and help you avoid disaster. It is always worth noting that bright and dark colours prefer cooler, quicker washes.

Higher temperatures washing encourages the loss of dye and fade black and bright clothes by opening up the fibres, so a warm or cool wash is your best bet.

To set dye, try using white vinegar instead of detergent when you wash new clothes for the first time. After the first wash, using a good detergent aimed at low temperature washing will ensure you get a great clean, even at lower temperatures.

## PLEASE NOTE

Where Stock Clothing uses the same fabric construction you will note that the descriptive title substitutes a numeric '5' for the last number. Example: **G-Lite 500** becomes **G-Lite 505**

### G-Lite 500/505

A breathable fabric construction that allows moisture to flow through. Actively wicks perspiration away from your skin, keeping you cool and dry.

### G-Lite 400/G-Lite 405

A specifically formulated to accommodate sublimation printing, this fleece-style fabric has an attractive smooth face which allows you an unlimited choice of design. Its brushed reverse also delivers superb comfort and warmth.

### G-Mesh/G-Mesh 400

Specially designed wider mesh weave for maximum ventilation in those areas where your body needs it most.

### G-Pique 600/605

Soft lightweight knit pulls moisture through to keep you cool and comfortable

## FIT

### G-Pro Stretch 700/705

A lightweight performance fabric that stretches to provide an athletic fit and developed to be sublimated with your own design. The construction delivers a soft and light texture. This fabric minimises restriction of movement, thus improving performance and comfort in play. This fabric is also stocked in solid colours.

### G-Quilt 600/605

Lightweight and versatile, this offers superb warmth without weight and is remarkably effective at keeping cold out. Quilted, synthetic insulation traps air in to keep you warm, even in the coldest weather.

## WATER RESISTANCE

### G-WP 750/755

Developed to give good water resistance and breathability to keep you dry and comfortable. This protects from the elements while out on the pitch and also for everyday use.

### G-WP 600/605

Train right through whatever mother nature throws at you with this lightweight breathable and wind resistant fabric. With attractive grid pattern on the surface for added interest.

### G-WP 500/505 Revolution

A modern, high tech, woven taslon fabric which is strong, durable, water-resistant and wind-resistant. Ideal for outerwear garments suitable for training in, every day of the week and offering reliable protection from the weather.

# Size Chart

The fit of your clothes depends on many things, including the cut, fabric, styling and even the underwear you are wearing! By following our body guide and how to measure guide, we hope to find you the best possible fit. It is always suggested that you measure more than once as your posture changes when you move and sometimes affects the measurement you take - do this and take an average of the measurements.

## MEASURING

### CHEST CIRCUMFERENCE

Measure all the way around- taking the tape approximately 2.5cm from pit of arm, around the fullest part of the chest. Try to keep the tape level.

### WAIST CIRCUMFERENCE

Measure all the way around- taking the tape around the natural waist (this is the narrowest part of your waist). Try to keep your tape measure level.

Our trousers and shorts are elasticated so there is always plenty of room for movement here - if you are confused use the hip measurement.

### LOW HIP CIRCUMFERENCE

Measure all the way around taking the tape around the fullest part of the bottom. Try to keep the tape level.

### INSIDE LEG

Measure from the top of the inside leg to bottom of the heel. Please remember you can always take a trouser up if they are a little long, try turning the waistband or sewing the hem.

### GENERAL TIPS

1. Measure yourself wearing underwear - do not measure over clothing.
2. Stand straight and keep both feet on the floor.
3. Make sure the tape measure is kept level.
4. Ask a friend to help take your measurements (it's sometimes easier to have help).

Our ranges are designed with layering in mind. If you buy a jacket for your body size, you can be sure you will be able to fit a top and a light sweater underneath.

All measurements are an approximate guide.
