

Grey Tavern Goal

Our goal is for all Grey Tavern games to be Ranked 4 in at least 1 category. As you will see in the “Spells-Ranking Guide” PDF, Ranking an activity by filling in all 4 of the white circles for one of the 8 good categories means that Guardians think that activity is high in educational and personal growth benefit in that specific category.

The Ranking system is designed to help Guardians identify and show Bixis how much benefits and drawbacks exist in a certain activity. We call this Ranking system a Nutritional Analysis for Behavior and Growth from certain activities.

The Ranking System is essentially a way for Guardians to judge how physically, cognitively, emotionally, behaviorally, etc beneficial an activity is for their Bixi on a “nutrition” spectrum.
