SKOMBO

PREVENTING INJURIES, SAVING LIVES.™

Hal & Brigitte Wing built their company
on a strong foundation.

EVERY RUNG,
EVERY RIVET,
EVERY WELD MATTERS.
EVERY PERSON MATTERS.

This principle is the reason Little Giant
continues to innovate and improve
climbing equipment today.

MANY HAVE ASKED US WHY WE INVEST SO MUCH INTO RESEARCH & DEVELOPMENT.

THE SIMPLE ANSWER?

We are in business to prevent injuries and save lives.

Every day at least 2,000 people are injured while using a ladder. Over 100 of them suffer a long-term injury or even permanent disability. Every day one person dies, never returning home to their family.

This fundamental purpose drives Little Giant Ladder Systems® to be the safety and innovation leader in climbing systems and professional access equipment. We have partnered with safety professionals all over the world to develop real solutions to real safety problems.

THE EVERYDAY KILLER

Even the simplest, everyday tool can be deadly when we misuse it. No sane person would swim unprotected in shark-infested waters, walk alone in tiger country or use a chainsaw carelessly. What would you say if we told you there is a seemingly harmless everyday tool that causes more deaths than sharks, tigers, chainsaws and even plane crashes combined – ladders.

We use ladders every day and we often forget about the risks involved and instead worry about shark attacks, plane crashes, lightning strikes or even a hurricane. Remember, at least one person dies every day while using a ladder. Over 400 last year.

THE ONLY ACCEPTABLE NUMBER IS 0.

**“LITTLE GIANT - THE SAFEST, STRONGEST,
MOST VERSATILE LADDERS IN THE WORLD.”**

THE FUTURE OF CLIMBING EQUIPMENT

Little Giant has taken the next step in climbing equipment safety by creating products engineered to protect you. We design specifically to account for human behavior. Your safety is our obsession.

Our long-held manufacturing creed sums up our commitment to provide the safest access equipment in the world – every weld, every rivet, every rung and every person matters.

DESIGNING FOR HUMAN BEHAVIOR

Although training is extremely important, training alone is not enough to keep you safe. Our new, professional climbing equipment is specifically designed to help you avoid OSHA safety citations as well as injury.

TOP 3 CAUSES OF LADDER ACCIDENTS

1. REPEATED HANDLING OF HEAVY, OUTDATED LADDERS
2. USING THE WRONG LADDER FOR THE JOB; USING THE RIGHT LADDER THE WRONG WAY
3. OVERREACHING

Little Giant is dedicated to leading the industry by constantly striving to help prevent ladder injuries. We design products to stack the cards in your favor, keeping you as safe as possible.

IT IS BETTER TO BUILD A FENCE AT THE TOP OF A CLIFF
THAN TO PARK AN AMBULANCE AT THE BOTTOM.

1. ROTATING WALL PAD

Four positions to help you conquer any challenge. Inside corners, outside corners, walls and 2x4 studs.

2. COMFORT STEPS

Wide steps provide stability and comfort for long hours of getting the job done.

3. GROUND CUE®

Audible "click" on bottom step alerts you when you have reached the bottom step of the ladder.

4. RAIL GUARD

Shock-absorbing braces increase ladder lifespan by protecting it during daily use.

5. NON-CONDUCTIVE RAILS

Non-conductive fiberglass rails rated to hold up to 375 lbs.

6. STRAIGHT-LINE REAR SECTION

Access tight workspaces between wall studs, ceiling trusses and roof or attic access ports.

7. V-BAR

Non-marring, heavy duty stud gripper conforms to outside corners and small poles.

8. NON-MARRING WALL PAD FEET

While in extension configuration, helps protect paint, sheet rock and wall surfaces.

SENTINEL™

COMBINATION LADDER

375 LBS RATED

LIGHTWEIGHT

Sometimes, you need to get closer to the task at hand than a standard stepladder offers, and that's where the Sentinel™ comes in. The Little Giant® Sentinel combines two ladders in one, stepladder and leaning ladder, making it a versatile tool to help you get stuff done with confidence. The Sentinel is available in 10' and 12' models and meets or exceeds all OSHA and ANSI standards.

2. EXTRA WIDE COMFORT STEPS

Wide steps provide stability and comfort to prevent fatigue while getting the job done.

3. GROUND CUE®

Audible “click” on bottom step alerts you when you have reached the bottom step of the ladder.

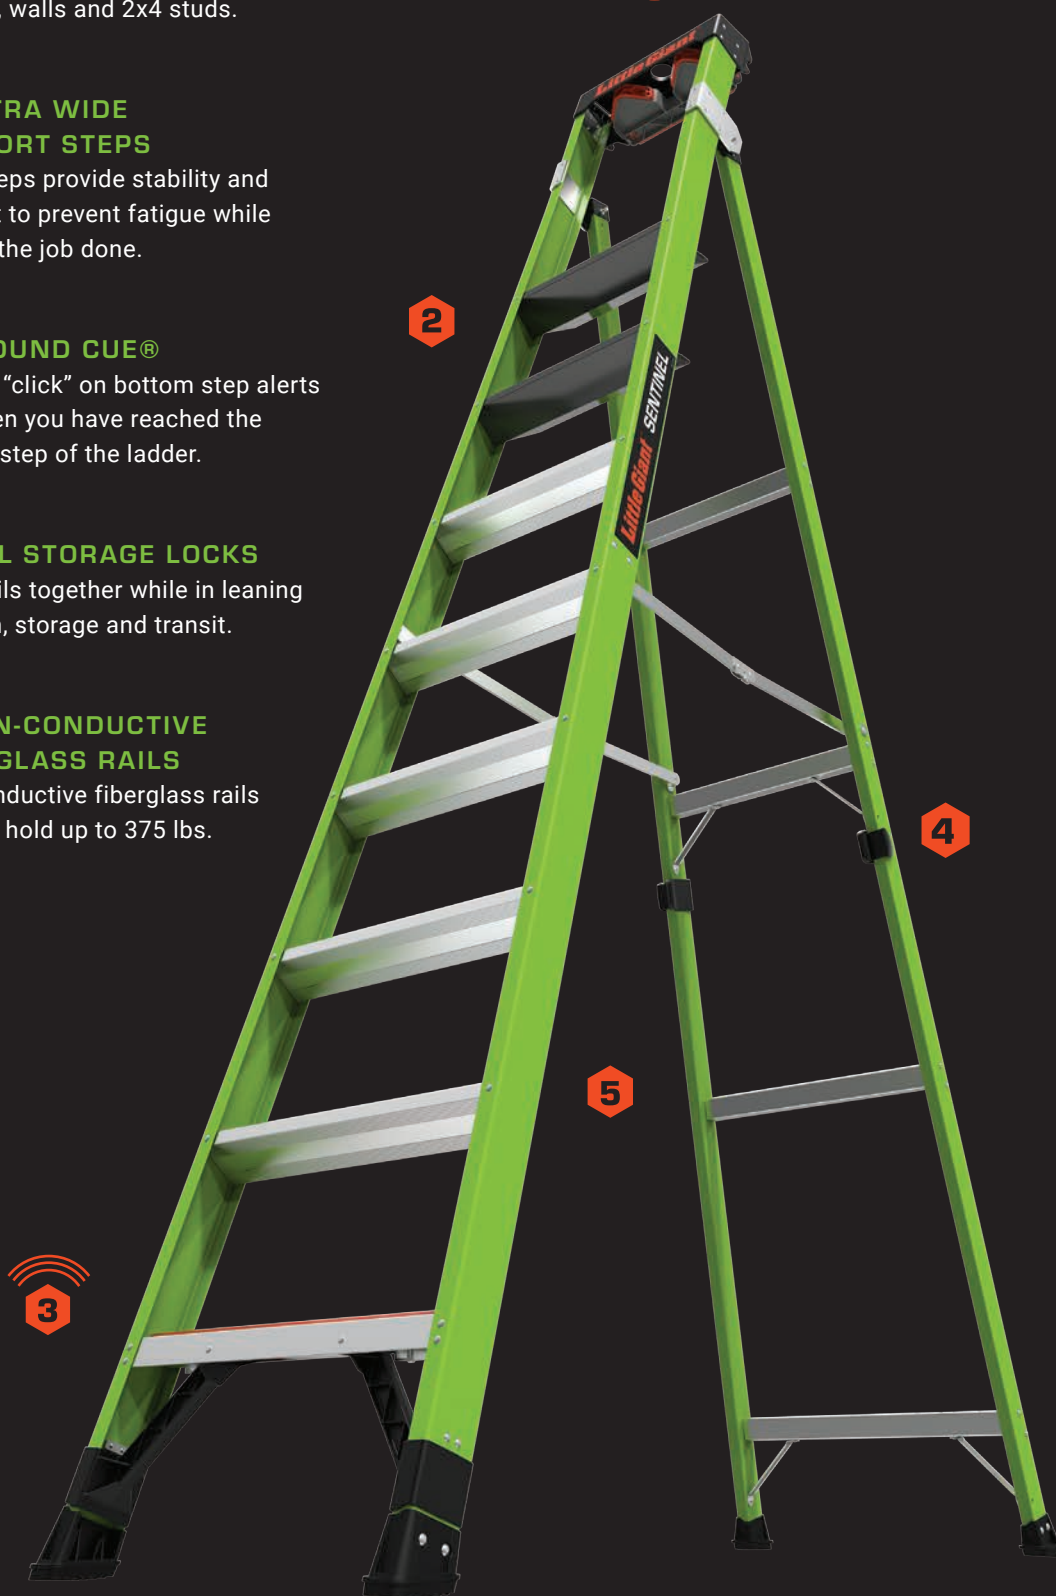

4. RAIL STORAGE LOCKS

Keep rails together while in leaning position, storage and transit.

5. NON-CONDUCTIVE FIBERGLASS RAILS

Non-conductive fiberglass rails rated to hold up to 375 lbs.

1. TOOL TRAY TOP CAP

Innovative top cap has a place for everything.

2. COMFORT PLATFORM

Stand on the comfort platform for a more balanced and enjoyable working experience.

3. GROUND CUE®

Audible “click” on bottom step alerts you when you have reached the bottom step of the ladder.

4. SLIM STORAGE PROFILE

With a storage profile of only 4”, easily store your MightyLite anywhere.

5. RAIL GUARD

Shock-absorbing braces increase ladder’s lifespan by protecting it during daily use.

6. NON-CONDUCTIVE FIBERGLASS RAILS

Non-conductive fiberglass rails rated to hold up to 375 lbs.

MIGHTYLITE™

LIGHTWEIGHT

300, 375 LBS RATED

Everyone needs an ultra-functional stepladder. If you are looking for a lightweight, comfortable-to-use stepladder that helps you safely reach those high places, the MightyLite™ is the right ladder for the job. The MightyLite meets or exceeds all OSHA and ANSI standards. The 4', 5', 6' and 8' models are available in IA and IAA ratings.

COMFORT PLATFORM

Stand on the comfort platform for a more balanced and safe working experience.

GROUND CUE®

Audible "click" on bottom step alerts you when you have reached the bottom step of the ladder.

DS-XL™

375 LBS RATED

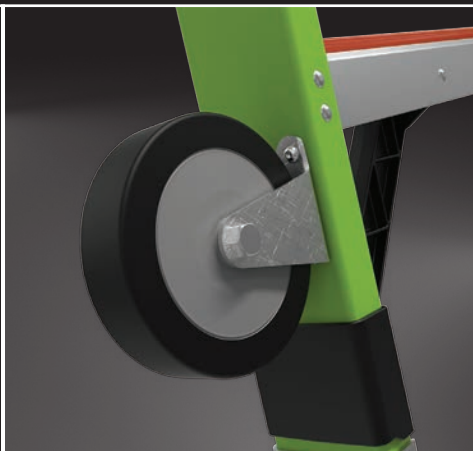

2 PERSON LADDER

The DS-XL™ is designed as a true two-person stepladder. With its wide steps, both users will feel comfortable while working on the ladder. Made with Hi-Viz Green fiberglass, the ladder is non-conductive, and the color promotes safety, as it is the most visible color to the human eye. The DS-XL meets or exceeds all OSHA and ANSI standards, and with a Type IAA rating, it is certified to hold 375 lbs. on both sides. It is available in 6' and 8' models.

RUBBER IMPACT BUMPERS

Rubber bumpers protect ladder and equipment in the event of tipping during transit.

TIP & GLIDE™ WHEELS

Easily move the ladder across the job site with Tip & Glide™ wheels.

1. RUBBER IMPACT BUMPERS

Rubber bumpers protect your ladder and equipment in the event of tipping during transit.

2. DUAL GROUND CUE®

Audible “click” on bottom step alerts you when you have reached the bottom step of the ladder

3. EXTRA WIDE STEPS

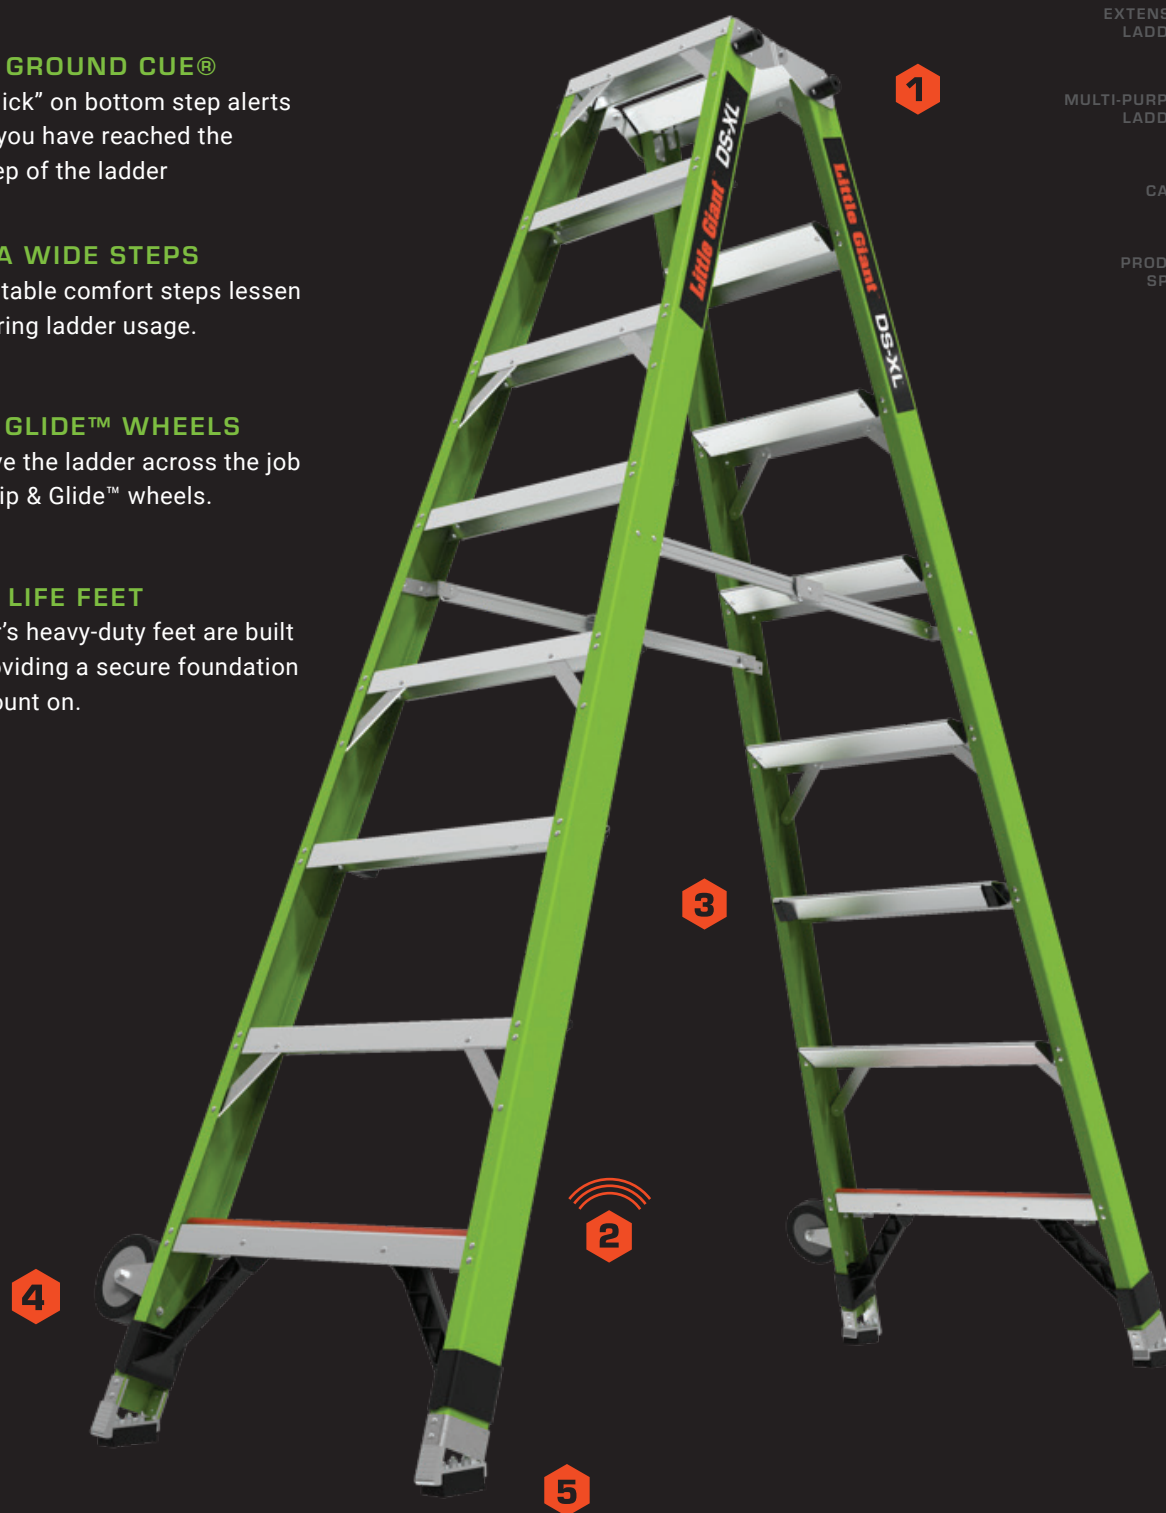

Safe and stable comfort steps lessen fatigue during ladder usage.

4. TIP & GLIDE™ WHEELS

Easily move the ladder across the job site with Tip & Glide™ wheels.

5. LONG LIFE FEET

The ladder’s heavy-duty feet are built to last, providing a secure foundation you can count on.

1. ACCESSORY PORTS ON TOP CAP

Ports allow use of Little Giant AirDeck® accessory.

2. WIDE RUNGS

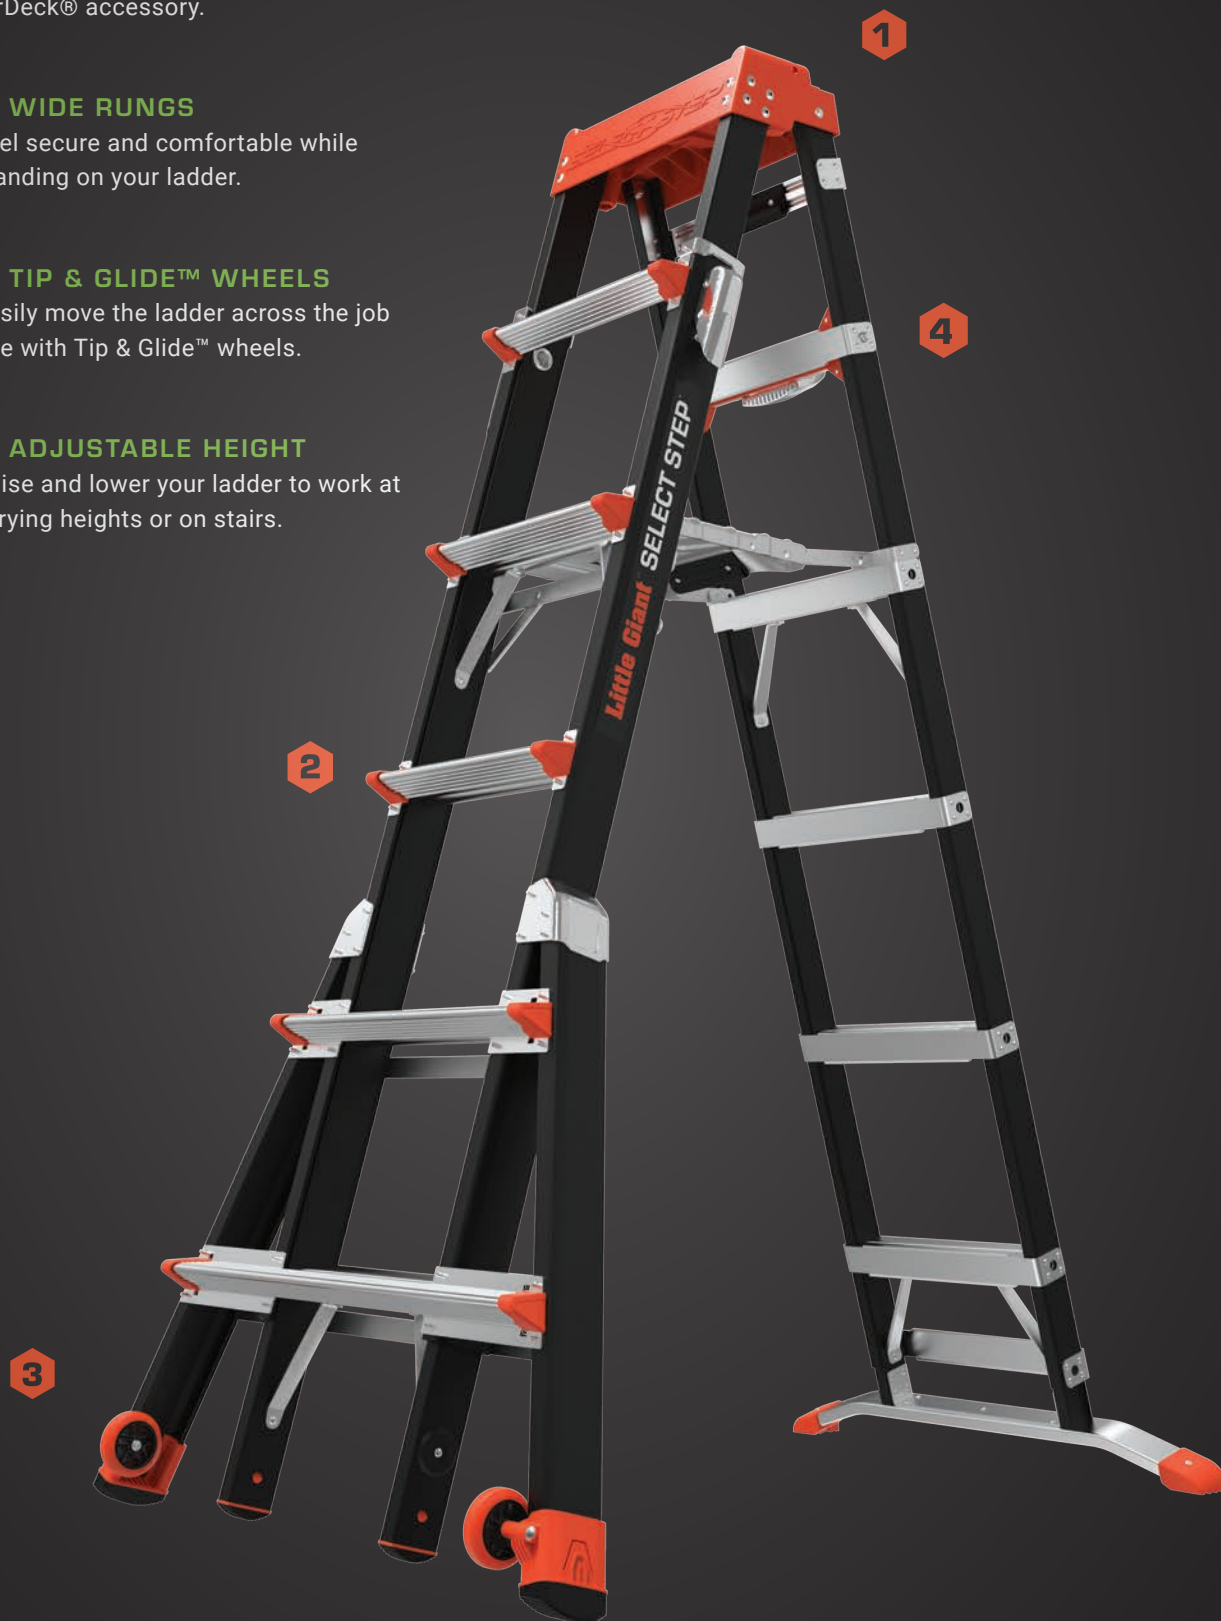

Feel secure and comfortable while standing on your ladder.

3. TIP & GLIDE™ WHEELS

Easily move the ladder across the job site with Tip & Glide™ wheels.

4. ADJUSTABLE HEIGHT

Raise and lower your ladder to work at varying heights or on stairs.

1. SAFETY HANDRAIL

With the rotating handrail, you will feel stable while working on the Jumbo Step.

2. TOOL TRAY TOP CAP

Place your phone, hammer, drill or other materials on the tray for easy access while working.

3. SLIP-RESISTANT STEPS

Each step's treads are slip-resistant for extra security.

4. WIDE COMFORT STEPS

With its ultra-wide steps, it feels like walking up a staircase, not a ladder.

5. LIGHT, YET RATED FOR 375 LBS

Lightweight aluminum holds more than most traditional stepstools.

6. WIDE-FLARED FEET

The Jumbo Step's extra-wide, slip resistant feet are perfect for working over grates.

1. DOUBLE-PULLEY SYSTEM

By moving the pulley to the side of the ladder, the rope stays away from your feet. Incorporating a double-pulley makes adjusting the ladder easy and simple.

2. BUBBLE LEVELS

With bubble levels, you will always know if your ladder is level before you begin climbing.

3. SURE-SET™ FEET

Securely stays in place, swivels for use in the spike foot position.

4. CLAW® FASTENING SYSTEM

Optional add-on: Clamp the ladder to an anchor point.

5. LIGHTWEIGHT FIBERGLASS

Lightweight, non-conductive fiberglass rails rated to hold up to 375 lbs.

6. HI-VIZ GREEN

Easily visible, this Hi-Viz green color increases ladder visibility and safety.

HYPERLITE®

LIGHTWEIGHT

300, 375 LBS RATED

Using an extension ladder can be intimidating, but with the right ladder, it doesn't have to be. The Little Giant® HyperLite® is ultra-light and designed with safety and ease of use in mind, so you can focus on the task-at-hand, rather than worrying about your ladder. The HyperLite is available in IA and IAA ratings. For rating sizes see page 37.

DOUBLE-PULLEY SYSTEM

By moving the pulley to the side of the ladder, and incorporating a double-pulley operation, adjusting the ladder is simple.

SUMOSTANCE[®]

LIGHTWEIGHT

300, 375 LBS RATED

The SumoStance is the only extension ladder in the world with Little Giant's patented SumoStance leveling outrigger system, which more than doubles the ladder's base width and increases side-tip stability. The SumoStance's intuitive safety features help ensure a safe, stable set-up for any job on almost any surface and is lighter than ordinary extension ladders.

WIDE-STANCE LEVELING AND OUTRIGGING

Easily adapt to uneven terrain to feel more secure on your ladder.

BUBBLE LEVELS

With bubble levels on the side and at the base of the bottom rung, you will always know if your ladder is level and safe to climb.

LIGHTWEIGHT

375 LBS RATED

Easily access your tasks at the job site with the Underground Utilities Access™ Ladder. While most manhole ladders are heavy and awkward to carry, the Little Giant® Utility Access Ladder is designed to allow one pro to access underground work areas quickly and safely. With ladder extenders in varying sizes, you can set up your ladder to have the right lengths needed for the task at hand.

TWO TOP SIZES

With two different length-attachable ladder segments, the Utility Access ladder can be configured to reach 12', 16' or 20'.

RAPID LOCKS®

Quickly adjust and fasten your ladder.

DARK HORSE™

MULTI-POSITION LADDER

300, 375 LBS RATED

The Little Giant® Dark Horse™ combines some of our best ladder features into one versatile multi-position ladder that will suit your ladder needs for years to come. Set up the Dark Horse in stepladder, extension, 90-degree, staircase and trestle-and-plank* positions, for a versatile, easy climbing experience. The Dark Horse meets or exceeds all OSHA and ANSI standards.

**Plank accessory not included.*

VERSATILITY

Stepladder, extension, 90° and sloping ground configurations give you the ability to get around any obstacle.

1. WIDE-FLARED BASE

Feels safe with a solid foundation, decreasing the odds of tipping.
