• How to take out the parts

- 1.Open the top case, and pick up two donuts.
- 2.Pick the pins, and lift up from the bottom case.

• How to play (for 2 persons)

- 1.Separate the donuts by color with the cases.
- 2.Whichever player is better at playing this game uses the black donuts. The better player drops a black donut after another player drops a white donut.
- 3.Two players alternately drop the donuts. A player makes first a row with four donuts in individual color become a winner. The row is horizontal, vertical, or diagonal. (see below "Examples for making a row")

Examples for playing long time or making handicaps.

- Ex1. Continue the game and add one point to a player makes a row.
 Ex2. A better player must say "Checkmate" before making a row. Another player do not have to say that.
 Ex3. A not better player can return a white donut until another player drops a black donut.

Examples for making a row (One black row is finished)

※Because these are samples, white donuts and black donuts may not be same number.
