PICKING

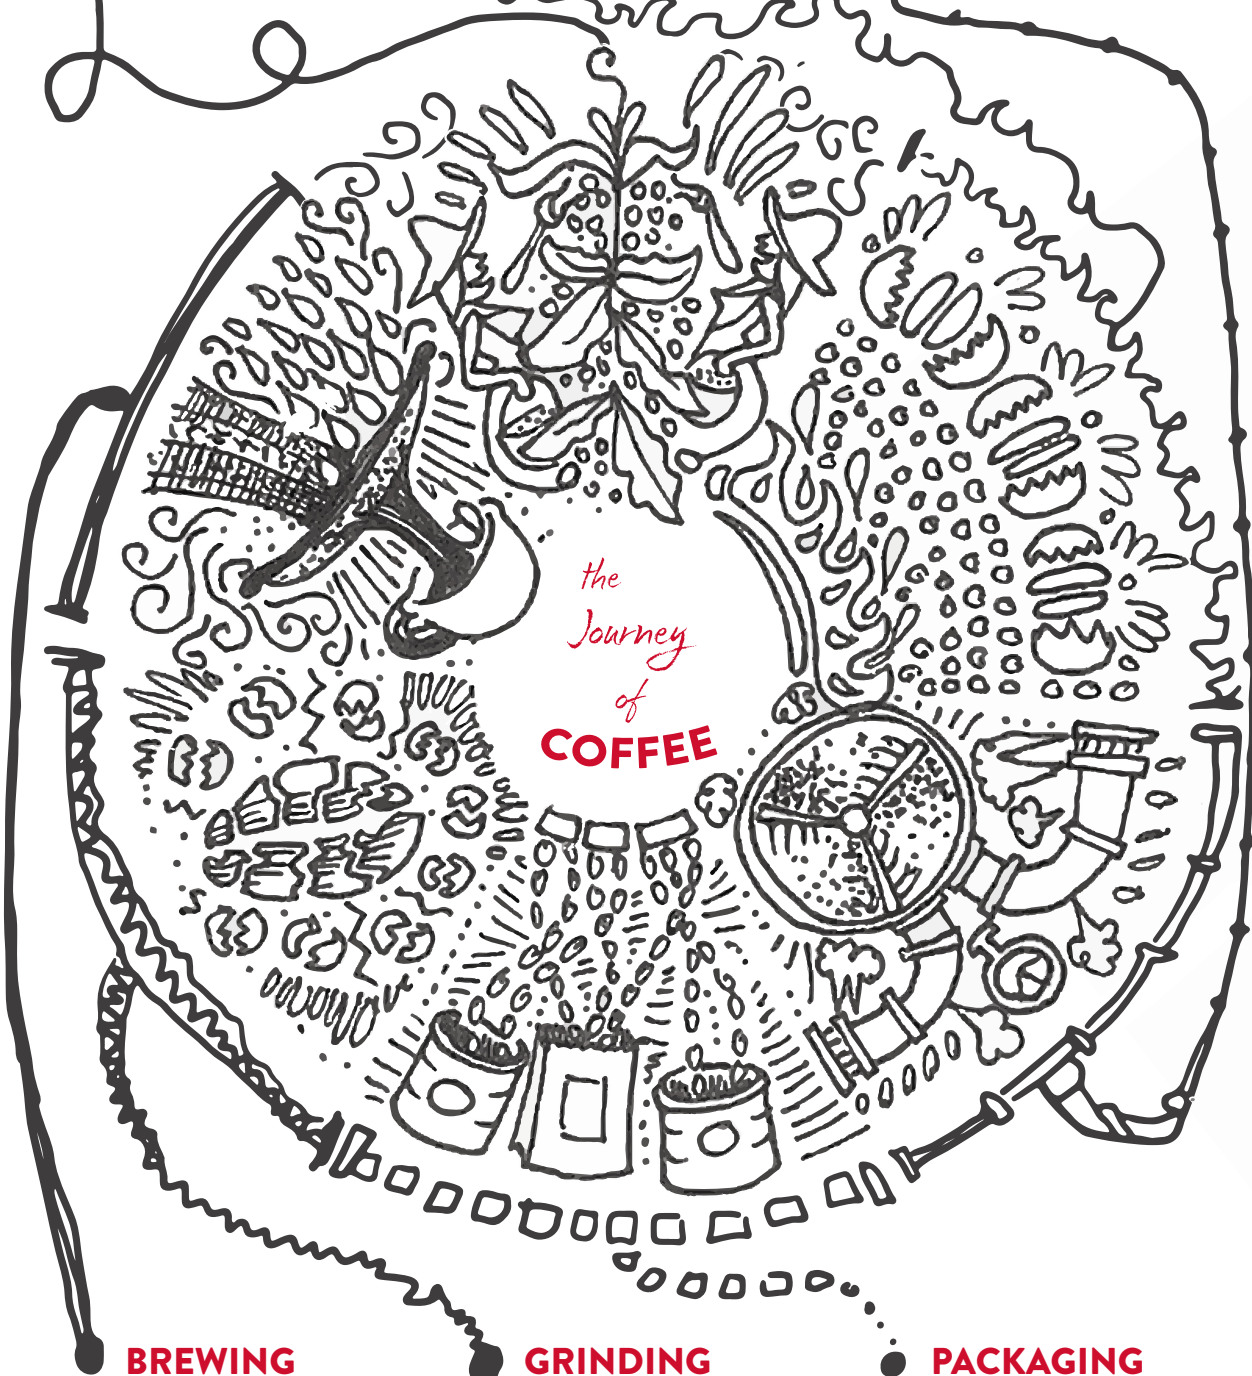

Our producers love to pick the ripest cherries from the highest altitude coffee growing regions all over the equatorial zone. If they're ruby-red in color, their seeds just might have the right to be eventually branded under our labels.

PROCESSING

Whether a natural (dry) or washed (wet) process, we love the look of the green beans and the unique personality we find in every burlap sack that finds its way to Sheboygan, WI.

ROASTING

The wafts off the roaster, the sound of the first crack, the daily gathering in the cupping room to compare notes, the endless experimenting with new blends, studying temperature charts... these experiences never get old to us.

BREWING

Get a whiff of the brew, hear the steam pouring, watch the french press bloom -- we're here to share our equipment and brewing expertise to make sure the coffee's always on for you and your customers.

GRINDING

We can grind it or you can grind it, either way the daily grind (pun intended) suddenly seems more doable when you know that precisely ground coffee is perfectly brewing pot after pot.

PACKAGING

The fresh coffee smell you get every time you open our packaging is directly correlated to when it was packaged. To ensure the best end product -- our coffee is roasted and packaged on the same day. Your coffee is roaster-fresh since every package receives a gentle puff of nitrogen to preserve flavor and aroma.

THE COFFEE'S ON

Things will be better in a moment, just like they've always been. Life's complicated, crazy sometimes, but it's OK—the coffee's on. And for people in this part of the world, that coffee is Torke—expertly crafted, sourced, and roasted blends that people have consistently turned to for excellent quality for generations. Get a whiff of the brew, hear the steaming pour, lift your favorite cup, sip, taste and suddenly things are a little bit more doable, more at ease, more hopeful.

For over 75 years, we've kept the coffee on.

PREMIUM COFFEE

It was in 1988 that Lynda Torke got her first car, a 1978 Olds 88. It was a gift from her grandparents for winning the family's roasting competition that month. These are her blends -- timeless, consistent, and approachable. We think you'll like putting these coffee's on every day.
