

Advanced Innovative Machinery

NOTE: Clutch must be centered with the derby cover opening. Any offset derby cover opening will cause clearance issues. Please double check with your application to make sure the clutch basket is centered with the derby cover opening.

Centered
VP SDR V2 will clear.

NOT Centered
VP SDR V2 will not clear due to the offset.

This issue can be remedied for older 6 Speed bikes, by converting to a Narrow Outer Primary Cover, the VP SDR V2 can be used without any issues.

Harley Davidson Part Number: 25700385 Chrome, 25700438 Black Available, also requires Narrow Primary specific derby cover and gasket.
