

# GIFT IDEA #7

## DOG COLLAR

Created by Erin McDaniels of Hyde & Hound

### PATTERN

1" Between rivets

1/2" Between oblong punch and rivets

Pick your conchos!

Number of conchos will vary depending on neck size.

Each concho hole is 1.5" - 2" apart.

NOT TO SCALE

# DOG COLLAR

Created by Erin McDaniels of Hyde & Hound

## INSTRUCTIONS

1. Cut a strip of leather to width you want (pattern shows 1" wide strip).
2. Measure dog's neck and add 10" to determine length to cut strap to. Smaller dogs may need less length.
3. Bevel strap edges to round them.
4. Use a ruler to measure 7" from one end of strap and add a mark to the flesh side of leather for buckle end.
5. Using a skiving tool or leather splitter, remove about half the thickness of the leather from the 7" mark to the end of the end of the buckle side.
6. Use round end punch to round off right at the end of the buckle side.
7. On grain side of leather, measure in 3.5" from end and make a small mark.
8. Take 1" oblong punch and center on mark. Use mallet to give punch a few firm whacks to punch hole through leather.
9. Use #02 round drive punch to punch the holes on buckle side as shown in the pattern.
10. For tail end, line up second hole at dog's exact neck size. Mark leather at end of template and use point end punch to cut off excess. Bevel tail end.
11. Punch holes for conchos.
12. Leave leather natural or dye with stain and let dry. Buff with soft cloth and apply leather conditioner.
13. Apply conchos with screwdriver.
