# NOBODY LIKES A COLD, DAMP TOWEL

artos<sup>®</sup>  
towel dryer

regular towel bar

→ After a good shower you are clean, warm, comfortable & relaxed... then you step into the room.

The towel is around 30° colder than your skin and you feel the chill.

**The towel is around 30° warmer than your skin and you remain comfortable until you are dry and dressed.**

How do you like your towel to feel each time that you use it?

Always cold...often damp...likely to be harboring germs!

**Warm  
Soft  
Aired  
Fresh**

And what happens to the towel after it has been used?

Stays damp and begins to breed airborne bacteria.

**Dries quickly and stays fresh and hygienic.**
