Feeding Rate

Introduce the diet gradually over a period of 5-7 days until it replaces the previous food completely. The product can be fed dry or moistened with water or gravy to the consistency that your dog prefers. The amounts shown are only a guide and you should only feed sufficient amounts to maintain sound condition dependent upon the level of activity enjoyed by and the conformation of your dog. Always ensure that clean, fresh drinking water is available at all times. In order to maintain and control your dog's weight to the optimum for the breed and size, the diet should be fed in conjunction with a year-round exercise programme. Do not be tempted to feed excessive amounts of titbits or treats.
