

**FORMA**  
Boots USA

**SIZING METHOD #1**

Order your regular sneaker size, but go up one size if you have wide feet.

**SIZING METHOD #2**

Place your heel against a wall and measure out to the end of your big toe.

The boot's inside length (see picture) should be around 1 inch longer than your foot. This measurement gives you the correct toe clearance for safety and comfort.

**MEN'S SIZING**

- 38eu **4 mens** 10.04" inside length
