WARRANTY:

This equipment comes with a 90-day warranty from date of sale. If any material defects in operation are found, contact us for instructions on returning for repair or refund. Shipping costs to Bonus Life Computers will be reimbursed for repairs and returns covered under warranty. Please do not return items without prior authorization.

NOTE: Warranty void if device case has been opened, device has been modified in any way, or device has been misused. Tamper stickers must remain intact for warranty to be honored. Boxes (including original equipment boxes) and shipping damage are not covered by this warranty but may be covered by postal insurance. Contact seller for information.

For service, questions, or other vintage computer needs, contact Scott Campbell, csc316@comcast.net.

Thank you for your business!

Bonus Life Computers

Vintage Computer Restoration, Service & Sales

Thank you for your order from Bonus Life Computers. We are dedicated to restoring these classic machines and peripherals and making sure they make it to the hands of enthusiasts. If there is any problem with your order that would prevent you from years of enjoyment with your new “old” tech, please let us know. We’ll make it right. The best way to contact us is via the Contact form on our website, www.bonuslifecomputers.com

It is possible that we have shipped your unit(s) in reused boxes and/or with reused packing materials. We hope this hasn't caused any confusion. We are dedicated to being as environmentally friendly as possible, and we receive a LOT of very reusable boxes (especially from Amazon), so why not give them a bonus life too? However, if on its second use, the box you received your equipment in will not be in good enough condition to use for returns, please don't reuse it in the event of a return. We will reimburse a nominal charge for a new box if you make a return and need a new box, and request that we do so.
