# Instructions

1. Take the **flower making tool** and place a **flower stem** onto the tool, with the flat base at the bottom, pushing it all the way on.

2. Take **three petals** of your choice and place onto stem, pushing them to the bottom. Make sure you alternate the way each petal faces when putting them on the stem. (The flower petals can sometimes be stuck together, please ensure you separate them before putting them on).

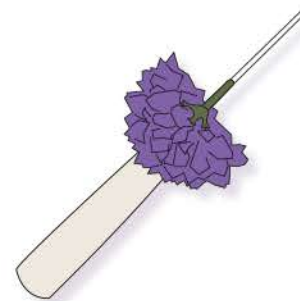

3. Place your **inner support** on top and press firmly down.

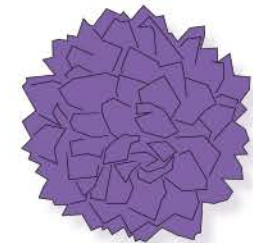

4. Take **three more petals** and place on top of **inner support** and press firmly down. Make sure you alternate the way each petal faces when putting them on the stem.

5. Add a **base cap** and push firmly on.

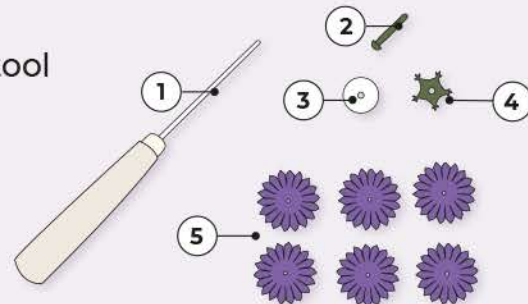

6. Take the flower off the tool and "fluff" out your flower.

## BOX CONTENTS:

1. flower making tool
2. flower stem
3. inner support
4. base cap
5. petals

*To add extra effect, you can colour the flowers with glitter pens, shimmer paints, crystal drops, sprays, or add glitter, gilding flakes or foil!*
