Our furniture is hand-made and in many cases quite soft so keep in mind dimensions may vary by an inch or two.

Configurations

Neva Sleeper Sectional is not modular, since the middle seat and one arm are combined to accommodate the tri-fold mattress hardware within their frame. All pieces [including ottomans] connect to each other using zinc alligator clips fixed to the underside.

Care

Since our sleeper sectional frames are fully upholstered, only the cushion slipcovers can be removed for cleaning. For detailed

instructions on spot cleaning, dry cleaning, and machine washing, check out our post, "[Cleaning your slipcover.](#)"

Spills & Stains

Tread carefully——treatment can vary by fabric, color, and stain type.

Dry Cleaning & Machine Washing

Natural fabrics & Recycled Poly Linen: We strongly recommend dry cleaning for regular laundering and stain removal. Machine washing is possible with a bit of mindful care.

Recycled Faux Fur: Machine wash per the instructions in our detailed care post and air-dry. Do not dry-clean or tumble-dry.

Upkeep & Maintenance

Natural fabrics & Recycled Poly Linen: Vacuum regularly [with an upholstery attachment if you have one].

Recycled Faux Fur: Gently brush the fabric fibers with a soft-bristle brush [or your hand] in the direction of the fur.

You can read more about day-to-day maintenance in our post, "[Getting to know your Sixpenny.](#)"

Please note that consistent exposure to direct sunlight can lead to fading or discoloration. You can read more about fabric colorfastness in our post, "[Fabric fading 101.](#)"

Construction

Slipcover

Frames are fully upholstered, cushions are slipcovered.

Frame

Kiln-dried hardwood & plywood

Mattress

Premium, quilted, 3.5"-thick mattress features high-density, high-resiliency foam. Double layer padding provides extra comfort. Mattress comes covered in all-natural cotton..

Legs

Solid rubberwood

Connection

Zinc alligator clips

Tri-fold sleeper mechanism offers superior comfort and support without snagging springs inside the mattress.

PRODUCT DETAILS

Cushions

Neva Sleeper Chaise Sectional's seat cushions contain three layers: your choice of loose fill [Feather Down or Poly Fill] at the top and bottom, and a "support layer" of high-density foam sandwiched between the fill.

Seat Cushions: 60% foam, 40% loose fill

Back Cushions: 100% loose fill

Our lofty Feather Down is ethically sourced, and our vegan Poly Fill is designed to mimic the familiar fluff of feathers. We mix a small percentage of vegan poly fiber into the Feather Down cushions for a bit of spring.

As a rule, the fluffier the cushion, the more upkeep it will require. Our cushions are exceptionally soft, and much of the fill is loose, so periodic fluffing will go a long way.

You can read more about our cushions in [Materials & Construction](#) or in our post, "[Inside scoop: Feather Down vs Poly Fill.](#)"
