

PT6/TPE331 Aircraft Engine Technician

Pacific Turbine Brisbane

Pinkenba, Brisbane

Full Time

At PTB Group we achieve exceptional results for our clients through a combination of expertise, innovation, and a personalised approach. Our culture of high performance and genuine care allows us to strike the right balance that sets us apart from others in the industry.

The Role – PT6/TPE331 Aircraft Engine Technician Pacific Turbine Brisbane.

You will be a key member of the busy Workshop team, reporting directly to the Workshop Manager:

Key Components of the role include:

- Minimum 5 years' experience in repair and overhaul of PT6/TPE331 required in a component shop environment.
- Can do attitude
- Strong attention to detail;
- Works well in a team and has the ability to work independently.
- Preferably your experience will include disassembly, inspection & assembly.
- Your skills, experience, and knowledge will be utilised to undertake aviation maintenance activities to meet the needs of Pacific Turbine and their customers.

If you have the skills we need, we look forward to hearing from you. This role is only open to candidates with rights to work in Australia.

Only shortlisted applicants will be notified.

The role is available for an immediate start.
