

SISTERS

Inspired by the complimentary energy of darkness & light, Kate Hewko's Sisters collection tells a luminous story of transformation & renewal. Channeling the feminine, the moon & the night, Sisters explores the hidden magic of Labradorite's shadow realm & Moonstone's mystery of light play. These iconic sister stones are the centre of attention in Kate's newest collection of 70's inspired cuffs, bangles, pendant necklaces, rings, and earrings. Calling upon the sensuality, flare, & sacred femininity of the 70's new age movement, the Sisters collection brings her Labradorite & Moonstone statement pieces to life.
