

How to Put on a JCJ Wrap Bracelet

- 1) Undo the clasp and let the leather hang long on both sides of the wrist with the wood centered on the top of the wrist.

- 2) Wrap one side of the leather in front of the wood.

- 3) Then wrap the remaining leather strands on the other side of the wood.

- 4) After choosing which setting is right for you based on your wrist size (see picture below of the typical three setting options) you can secure the clasp by turning your wrist over & placing the clasp through the setting. This process typically takes 1-3 times to master. If you have any questions please feel free to ask.

- 5) Some customers prefer to wear their bracelets with the clasp on top of the wrist- either for style or to accommodate their wrist size.
