

As someone who spends a good deal of time outdoors exercising, I am always looking for skincare products that can cleanse as well as protect my skin

Sophie, 20

Loving Rxformula for 10 Months

My Routine:

Glyco Mild Gel Cleanser 7

for my daily cleanser leaving my skin fresh & clear

Advanced Defense Moisturizer

for daily sun protection during my workouts

Gentle & Effective Microdermabrasion Cream

for post-workout to purify and cleanse my skin

Sophie's Story: With Rx Formula I get high quality products like the Glyco Mild Gel Cleanser that freshens my skin morning and night. Before I head outside to work out, I always make sure to apply my SPF 30 moisturizer. This moisturizer is light and creamy and does not leave my skin feeling oily throughout the day.

I have seen amazing results with the Gentle & Effective Dermabrasion Cream. I love to use this product/scrub after a sweaty workout, leaving my skin feeling purified and radiant. The combination of these three products have produced remarkable results for me.

They are a major part of my daily routine. My skin would not feel and look as healthy without them!
