

Phenolic

PARTITIONS | URINAL AND SIGHT SCREENS

Solid phenolic core is composed of compressed cellulose fibers impregnated with resins. The surface laminate is fused to the resin-impregnated core. All edges are machined and finished smooth with a 15-degree beveled edge. Material will not delaminate even under extreme conditions. Materials are non-absorbent, impact and graffiti resistant. Materials are impervious to steam, soaps and detergents and will not mildew.

MATERIAL

Mills® phenolic core partitions are perfect for high traffic areas where durability, strength and finish options are needed. Its impact resistance and superior strength are a result of high heat and high-pressure molding of solid phenolic core material with a decorative melamine surface. 12 standard phenolic colors or patterns are available. Almost any other Formica or Fundermax color or pattern can be ordered at an additional charge. Mills 3-year warranty against delamination and discoloration.

PRODUCTS

Sentinel™ overhead-braced, floor-braced, ceiling-hung and floor-to-ceiling partitions, urinal and sight screens.

APPLICATIONS

Outdoor parks, pools, shower rooms or any application where oil or water resistance is needed. Phenolic partitions withstand wet and humid environments.

Note: Due to printing variances, actual color and sheen of the material may differ. Contact your Bradley representative for material samples.
