

THE EQUINE ELIXIR DOSING GUIDE

DOSING YOUR ANIMAL

This is considered a starting dosage point. The chart below shows how many drops are needed to give this starting dosage based on LIX's ELIXIR bottles which come in 30ml bottles. A full dropper is 1ml and contains about 20 drops. Increase by 5mg a day to find an effective dose for your animal. For pain relief, administer twice daily.

EASY GUIDE DOSING

Droppers will contain 20 drops when filled to max 1.0 mL line on dropper. If you notice the dropper on the right, 1ml is only about 60% of the way up the dropper. If you prefer not to count out drops, please reference dropper dosing guideline on your purchased product packaging.

EQUINE FORMULA FOR OUR HORSE FRIENDS!	
2500MG ELIXIR 1 DROP = 4.2MG CBD	WEIGHT DROPS
	400-660LBS 5-6
	660-1800LBS 10-11
	INCREASE 1-2 DROPS DAILY TO ACHIEVE DESIRED RESULTS
