

Let's find *your*
perfect *ring size*.

IMPORTANT NOTE

PRINT THIS SHEET AT 100% FOR THE RIGHT ACCURACY.

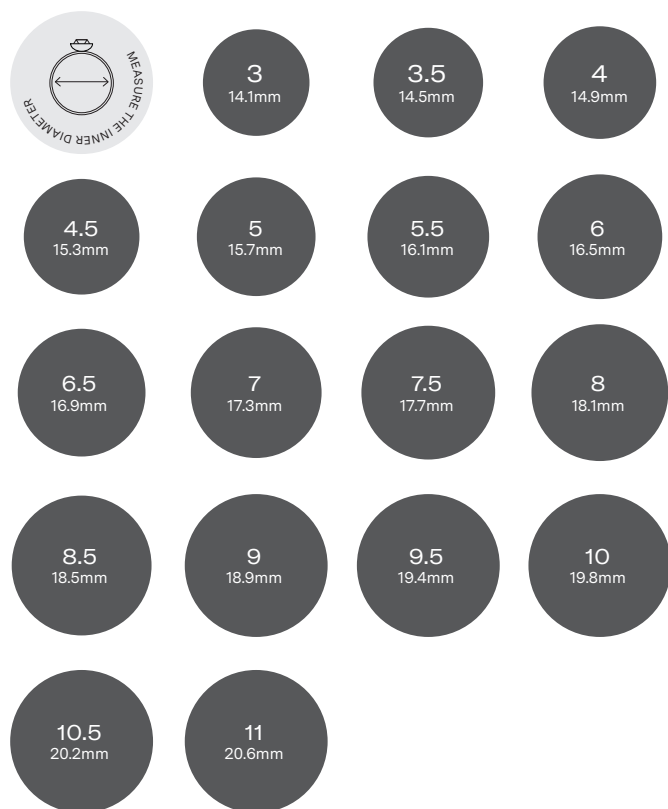

Place your credit card inside this frame to make sure the scale of your printed Ring Sizing PDF is exactly right. If your credit card does not perfectly align, the below measurements will not be accurate.

METHOD I

Measure *an existing ring*.

1. Choose a ring that fits the exact finger you want to purchase a ring for.
Your left and right hand fingers could have slightly different sizes.
2. If you already know the size of that ring, purchase that size.
3. Lay your ring on the size circles below until you can closely match the inside edge of your ring to one of the size circles on the guide.
4. If your ring falls between two sizes, you can choose the larger one.

The millimeters are equivalent to the inner diameter of the corresponding ring size.

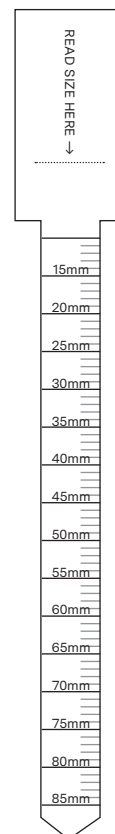

METHOD II

Measure *your ring size*.

1. Cut out the idyl Ring Sizer below.
2. Wrap the paper around the exact finger you want to purchase a ring for.
3. Make sure you pull the idyl Ring Sizer tightly. The tighter the better.
4. Mark the spot where the line meets.
5. Use the chart below to convert your measurements to a US ring size.

IDYL RING SIZER

US	EU / CIRCUMFERENCE
3	44mm
3.5	45.5mm
4	47mm
4.5	48mm
5	49mm
5.5	50.5mm
6	52mm
6.5	53mm
7	54.5mm
7.5	56mm
8	57mm
8.5	58.5mm
9	59.5mm
9.5	61mm
10	62mm
10.5	63.5mm
11	64.5mm

The millimeters are equivalent to the inner circumference of the corresponding ring size.

If you want to be sure of your ring size, try both methods until you are sure.
