REPLACING A LENS

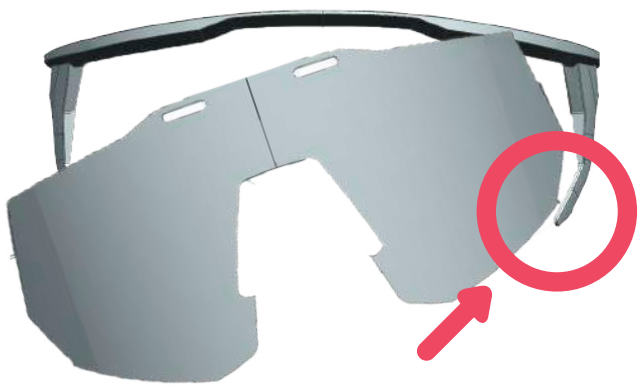

Step 1

Loosen the nose clip on one side and remove it.

Step 2

Detach the temples one after the other by pulling them outward.

Step 3

Insert the interchangeable lens into one of the two temples.

Step 4

Slide a lens into the other temple and attach the nose clip.

Step 5

Press the nose clip and frame together until it „clicks“.

CRASH REPLACEMENT

In the event of stone chipping, we will replace the lens.

Just write us a short email and we'll take care of it!

OUR TEAM

OUR PROMISE TO YOU

We are experts on all things bike-related!
100-day return policy for your display cover.
If you have any questions about the product,
we would be happy to help you!
