THE FUTURE OF URBAN MOTION

X-250
SERIES 4

INTRODUCING THE SX-250 SERIES 4

With its unparalleled styling the **SX-250 Series 4** sets the benchmark for electric mobility and will get you to your destination in comfort and in style.

The **SX-250 Series 4** has a new 250 watt brushless high efficiency rear hub motor giving you even more torque you need to get you to your destination.

The new and improved 48volt 26Ah lightweight lithium-ion battery achieves an impressive range of up to 50 miles* on a single charge.

The Eskuta vision is a simple one, to bring freedom of motion to the masses with our electric vehicles.

Eskuta are at the forefront of this revolution with radical new technologies; probing, innovating and challenging the conventional and we'd love you to come along with us for the ride.

*Battery range figures are quoted as an average and subject to conditions, gradient and rider weight.

WE'RE CREATING A REVOLUTION IN ELECTRIFICATION

With exceptional design ergonomics, the SX-250 redefines the category; compact, with a step through architecture, and weighing only 54kg, the ride is light and agile, being versatile enough for daily commutes or last-mile deliveries.

And compact doesn't mean less, in-fact the SX-250 is packed with features typically not found on an e-bike. CBS technology brakes, are a built-in feature, helping you stop quickly and safely. LED front and rear lights, alarm, immobiliser, self adjusting suspension all add to the host of standard features found on the SX-250.

Ask your Eskuta dealer for information or contact Eskuta directly.

SX-250 SERIES 4 OVERVIEW

SPECIFICATION SUMMARY

*Battery range figures are quoted as an average and subject to conditions, gradient and rider weight.

Range

Up to 50 Miles*

Speed

15.5 Mph

Power

250 WATT

Display

Full LCD

Waterproof

IP65

Wheels

18" Alloys

Lighting

Full LED

Safety

FULL SPECIFICATION

Model No.	SX-250	Waterproof Level	IP65
Certificate/Category	CE Certification/EAPC	Shock Absorber Front/Rear	Fr. Hydraulic Telescopic with Spring & Rr. Gas spring - height adjustable
EEC Classification	EN15954:2017	Brakes	Disc (CBS Tech)
Dimension (LxWxH)	1670 X 750 X 1080mm	Tires	Fr. 62/355-18" & Rr. 62/355-18"
Wheelbase	1170 mm	Light	Full LED - with front running light
Seat Height	860 mm	Speedometer	Full LCD
Ground Clearance	228 mm	Battery	48V 26Ah LiniMnCoo2 Lithium-ion
Net Weight	54kgs	Charging Time	6-7 Hours / 2 hours when 30% battery retained
Load Capacity	120kgs	Max Speed	15.5 mph / 25 km/h
Climbing Degree	20 Degrees	Range	40 - 50 miles (approx. 64 - 80 km)
Charging Voltage	AC110V - 230V	Motor	250W high-efficiency brushless hub motor with pedal assist and walk-mode system
