

## KEP Italia Inner Pad Sizing

The padding corresponds to the circumference of the rider's head. The KEP padding is divided into 12 sizes, depending on the size of the shell: Medium shell, padding from 51 to 58; Large shell, padding from 59 to 62. **But the right size of helmet is not enough; it must also suit the shape of the rider's head.** See the images below: Round on the left and Oval on the right.

The KEP Italia padding is in a single piece and is easily removable and repositionable inside the helmet. It is hand or machine washable at 30 degrees or in cold water. The fact that the padding corresponds to the size of the rider allows those who need to ride sometimes with their hair down, sometimes with their hair gathered up, to have two interchangeable paddings of different sizes. The same facility is for children still in the growth phase who easily change the size of the head. The parent will be able to buy the larger size and replace it with the one that has now become narrow, without the need to buy a new helmet.

### TAGLIE / SIZES:

CALOTTA MEDIUM	CM	51	52	53	54	55	56	57	58
MEDIUM SHELL	INCHES	6-3/8	6-1/2	6-5/8	6-3/4	6-7/8	7	7-1/8	7-1/4
CALOTTA LARGE	CM	59	60	61	62				
LARGE SHELL	INCHES	7-3/8	7-1/2	7-5/8	7-3/4
