

## BABY T<sup>ZERO</sup>

T Technology<sup>®</sup> inside by Ascaso.

Multi-group technology. Full PID control. It offers a great thermal stability with a high level of energy efficiency (low energy consumption) and clean and fresh water in each coffee.

**Multi-group (separate) technology with PID control** High professional-grade performance: Thermal stability guaranteed. High steam production.

**Clean coffee.** Minimal metal migration to the beverage through the use of stainless steel. Complies with European regulation EN 16889

**Freshly Delivered Water.** Avoiding the use of standing, constantly reheated water to make the coffee.

**Energy efficiency.** We deliver a 50% average saving compared with a traditional machine and 25% compared with other multiboiler machines.
