Playfinity and Right To Play Norway Unite Forces to Empower Kids Through Play

Enhancing Children's Lives Through Innovative Play: A Collaborative Venture to Foster Creativity, Learning, and Growth

Oslo, Norway. September 12, 2023 – [Playfinity](#), a leader in the world of Active Gaming and play, is proud to announce its alliance with the [Norwegian Branch of Right To Play](#) (RTP Norway), a beacon of hope for children facing adversity. This partnership is a testament to Playfinity's commitment to harness play's transformative potential for all children.

[This collaboration](#) brings together two different worlds. Playfinity's mission is to engage kids who are accustomed to digital screens and have increasing sedentary habits in sports and active play. On the other hand, Right To Play is dedicated to using play as a tool for growth and education among children facing adversity and marginalization. Together, they unite these two worlds with the same goal: foster a world where every child can thrive in a healthy and happy way, promoting holistic child development and well-being by harnessing the benefits of active play.

"We are proud to join forces with Right To Play Norway to empower children through play," said Playfinity CEO Pippa Boothman. "We believe that play is a powerful tool for learning, growth, and development, and we are committed to using our resources to make a positive impact in the lives of children around the world. Together, we hold the transformative power to create meaningful connections and inspire lasting change in countless kids' lives."

"Playfinity and Right To Play share a mutual understanding of play's life-changing potential for children, families, and communities," said Vilgunn Kronstad, Partnership Manager at RTP Norway. "We're thrilled to have you onboard, supporting our mission to empower children through the power of play. Welcome, Playfinity! Let's play for change together!"
