F45 Collection

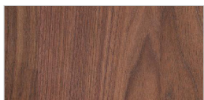

F45 is a collection inspired by the mitre joint, a woodworking term used to describe the joinery of two 45-degree angles. The pieces are defined by angular, tapered elements that form the base aesthetic of the collection.

S305B | Bookshelf

Our design goal for the S305 was to create a display unit with maximum space and a minimum feel. The shelving unit is constructed using solid wood shelves that are notched to fit around the vertical mounts. The S305L is an elegant and low storage solution that integrates easily into a number of decors. Also available in our Standard and Tall model.
