GLOBAL PARTS GUARANTEE

SUSTAINABILITY means two things to us. Making sure products are made from recyclable and reclaimable materials, and making sure they last as long as possible.

Your **qarbo LUXE** is designed and made with this philosophy in mind.

Every part of a **qarbo LUXE** is not only 100% recyclable and rigorously tested, they are also user replaceable.

As long as parts are available, your **qarbo LUXE** will never need to end up in a landfill.

THE BODY is the most durable part, as it is made from solid extruded aluminium and high-impact ABS plastic (both fully recyclable and reclaimable).

THE INJECTION HEAD is made from 100% recyclable ABS plastic. It is easily dismantled, for cleaning and installing the gas cylinder.

If no gas is being injected or if you have a weak gas flow – re-tighten the cylinder a quarter to half turn, check to see if the gas cylinder is empty, or if you have a faulty (blocked or leaky) Injection Head.

THE BOTTLE is 100% Recyclable PET with a stainless steel base. We recommend they be replaced every two years.

PET Bottles are not dishwasher, nor freezer safe and should not be exposed to extreme temperatures.

AIRPLUS CAPS are recyclable ABS plastic, and have very tight tolerances. Factors such as extreme temperature and contamination from sticky drinks can affect its reliable and safe operation.

If your caps exhibit leakage from the injection port, fail to hold or release excess pressure (no blow-off sound heard) stop using immediately, and contact support. Rest assured they're covered under warranty.

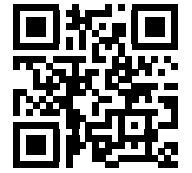

qarbo LUXE

Sparkling Water & Beverage Maker

FOR SAFE AND RELIABLE OPERATION OF THE AIRPLUS CAP

IMPORTANT INFORMATION

Your Airplus Injection Cap is a patented component for sparkling your beverages. Easily replaceable, it ensures the longevity of your qarbo LUXE.

HOW TO INJECT GAS Control injection lever using 2-3 short (1 second or less) bursts. Wait for bubbles to subside between bursts. Stop when you hear the safety blow-off valve activate. Liquid level should not reach the cap.

CLEAN THE CAP WITH TAP WATER AFTER EVERY USE

Gas blow-off is normal during full carbonation; silence may indicate a stuck valve due to sugar residue. If so, *stop carbonating*, let gas subside, and deep clean.

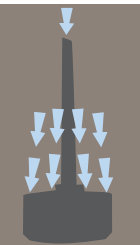

**PRESS
LEVER.
1 SECOND.
2-3 TIMES,
MAXIMUM.**

**IF YOU SEE
WATER OR
BUBBLES
COMING OUT
FROM HERE,
YOUR CAP IS
FAULTY.**

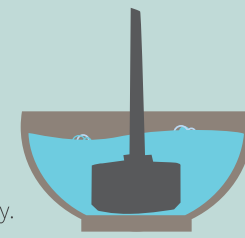

WASH CAPS AFTER USE

Ensure reliable operation by running your Airplus Caps under warm tap water after every use. Direct the stream into nozzle and openings under the cap. Shake off excess water and air dry.

HOW TO DEEP CLEAN

Soak the entire Airplus Cap overnight in a large container of warm soapy water. Make sure the body of the cap is fully submerged. Rinse, shake off excess water and air dry.

**IF YOU DON'T
HEAR THE
SAFETY
BLOW-OFF
VALVE ACTIVATE,
STOP USING CAP
IMMEDIATELY.
AND CONTACT
SUPPORT.**

PRODUCT WARRANTY qarbo LUXE Sparkling Water and Beverage Maker is designed to have minimal points of failure, so we are confident you will have years of trouble-free use. However, if your qarbo LUXE malfunctions within 12 months (unless you're signed up to our free EXTENDED warranty or according to specific country laws) from the date of purchase, we will replace the product (or faulty parts) if it was determined the malfunction was due to faulty workmanship or materials.

PRODUCT DISPOSAL The packing material is recyclable. If you want to dispose of the device, please choose an environmentally friendly way. Please contact your local authority for more detailed recycling information. Please dispose of the PET Bottle after two years of use by sending it to a recycling center or proper classification garbage bin. It is 100% recyclable.

SAFETY INSTRUCTIONS If you find any damage and defect with your qarbo LUXE Sparkling Water and Beverage Maker and its accessories (e.g. bottle etc.), please contact our customer service. Do not use the product or the related accessories if the damage or defect has not been repaired. Please do not adjust or repair this product or its accessories on your own. The repair must only be done by service personnel under our full authorization. Only use the original accessories provided or recommended by us, or you'll void your warranty.

Warning It is strictly prohibited to use and store this product at high temperature. Please note that the operation and storage temperature of this product is between 4°~ 40°C (40°~104°F). *party.* Only use commercially approved carbon dioxide cylinders, otherwise there is risk of air leakage and cold injury. **Warning:** It is prohibited to transform or disassemble the product by an unauthorized party. If maintenance is needed, please contact our after-sales service, and our professional technicians will be able to help. *Warning: Inflating the PET Bottle which has no water is strictly prohibited.*

Use of CO2 Gas Cylinder Please do not put it near any heat source (such as stove, water heater etc.). Keep out of direct sunlight. Please do not ship qarbo Sparkling Water Maker with the gas cylinder installed in the machine. They must be shipped separately. If the temperature of the gas cylinder is lower than room temperature, please warm it up to room temperature slowly. Do not accelerate temperature with any heat source. If the temperature of the gas cylinder is higher than room temperature, please cool it down to room temperature slowly. Do not put it in the refrigerator. If the gas cylinder is frozen, please do not touch or handle it with bare hands. There is the risk of cold injury or worse. *Note: There is pressurized carbon dioxide in the cylinder.*

Use of Bottle For your safety, only use the BPA-free PET Bottle supplied by us. Not doing so may cause injury, lead to the failure of the product and void your warranty. When the PET Bottle is deformed, scratched, discolored or expired, please do not use it and swap it for a new Bottle.

Disclaimer This product is limited to the scope of usage specified in this manual only. Failure to operate in accordance with this instruction or loss caused by malicious operation is not covered by our warranty. *Common sense, please.*
