

# Science Assessment Grid : Everyday Materials : Year 1

Everyday Materials																			
Group:		Year:		Term:															
Science																			
Lesson 1	Do children know what a material is?																		
	Can children identify a variety of common materials?																		
	Do children know where some materials come from?																		
Lesson 2	Can children identify a variety of common materials?																		
	Can children distinguish between an object and the material from which it is made?																		
	Can children identify which material a variety of common objects are made from?																		
Lesson 3	Can children use a variety of appropriate words to describe what various materials are like?																		
	Can children match materials to various properties?																		
	Can children group objects and materials according to their properties?																		
Lesson 4	Can children identify and describe a variety of materials?																		
	Can children suggest why a material has been chosen for a particular purpose?																		
	Can children identify materials that are inappropriate for certain uses and offer alternatives?																		
Lesson 5	Can children make suggestions for how to test which materials are waterproof and which aren't?																		
	Can children test a variety of materials to see which are waterproof and which aren't?																		
	Can children draw conclusions from their experiment?																		
Lesson 6	Can children identify a variety of everyday materials and describe their properties?																		
	Can children distinguish an object from the material from which it is made?																		
	Can children identify materials that are suitable for a particular purpose?
