

Science Assessment Grid : Growth and Survival : Year 2

Growth and Survival																				
Group: <input type="text"/>		Year: <input type="text"/>		Term: <input type="text"/>																
Science																				
Lesson 1	Do children know that all animals, including humans, have offspring that grow into adults?																			
	Can children match a variety of adult animals to their offspring?																			
	Do children know that growth from offspring to adult is a gradual process?																			
Lesson 2	Do children know that animals have offspring that grow into adults?																			
	Can children describe some of the different ways animals have offspring?																			
	Do children know that not all animals reproduce in the same way?																			
Lesson 3	Do children know that humans grow as they get older?																			
	Do children know that body parts will grow in proportion?																			
	Can children describe the stages of human development?																			
Lesson 4	Do children know that all animals, including humans, need food to survive?																			
	Do children know that all animals, including humans, need water to survive?																			
	Do children know that all animals, including humans, need air to survive?																			
Lesson 5	Do children know that animals need air, water and food to survive?																			
	Do children know that an animal's survival often depends on its environment?																			
	Can children suggest reasons for why a species might become extinct?																			
Lesson 6	Do children know why we eat and why it is important to eat a balanced diet?																			
	Do children know which foods we should eat most and least of?																			
	Can children suggest meals that would be good for them?																			
Lesson 7	Do children know that exercise is an important part of keeping our bodies healthy?																			
	Can children identify some of the changes that take place in our body when we exercise?																			
	Can children name various ways they can exercise different parts of their bodies?
