

# Geography Assessment Grid : Volcanoes : Year 3/4

Volcanoes																				
Group: <input style="width: 100%;" type="text"/>		Year: <input style="width: 100%;" type="text"/>		Term: <input style="width: 100%;" type="text"/>																
Geography																				
Lesson 1	Can children recognise what a volcano is?																			
	Can children explain where some famous volcanoes are in the world?																			
	Can children read and interpret a range of information types (tables, maps, written)?																			
Lesson 2	Can children explain and describe what happens when a volcano erupts?																			
	Can children explain why a volcano erupts?																			
	Do children understand that volcanic eruptions impact the surrounding areas?																			
Lesson 3	Do children understand the parts of a volcano?																			
	Can children explain the three main types of volcanoes?																			
	Can children understand and interpret cross-section diagrams of volcanoes?																			
Lesson 4	Do children understand the world's countries sit on large tectonic plates?																			
	Can children name the tectonic plates and countries that lie on them?																			
	Do children understand there are three types of plate boundaries?																			
Lesson 5	Can children explain why some people and animals live near volcanoes?																			
	Do children understand that not all volcanic regions are hostile?																			
	Can children explain how people, plants and animals adapt to a volcanic environment?																			
Lesson 6	Do children understand the similarities and differences between a volcanic area and a non-volcanic area?																			
	Can children explain how their life differs to others?																			
	Do children understand why people choose to settle in certain areas?																			
Lesson 7	Can children use research skills to find information?																			
	Can children plan and present a presentation on a chosen volcano?																			
	Do children know how to work in small groups?
