

Makita

18Vx2 Brushless Backpack Vacuum

DVC261X12

18Vx2 18V + 18V 36V
BRUSHLESS

Product Overview

Product Specification Sheet

Max sealed suction	11kPa
Max air volume	2.2 m ³ /min
Suction power	Max 95W High 50W Normal 25W
Continuous runtime (min) BL1860B x 2	Max 40 High 70 Normal 140
Skin weight	3.3kg
Weight with batteries	4.5kg
Voltage	18Vx2 (36V)

- **Lightweight Design** – the lightest cordless backpack vacuum on the market weighing only 4.5kg
- **Powerful Suction** – high performance suction for efficient use in tough applications
- **3 Stage Suction Control** – Allows the user to achieve optimum runtime and suction power for their task
- **HEPA Filter** – provides a high filtration rate of 99.97% at 0.3 micron
- **2 Piece Pipes** – Aluminium pipes for durability while remaining lightweight
- **Reusable Filter Bag** – cloth filter bag with 1.5L capacity and easy disposal of waste
- **Durable Hose** – Plastic coating on hose for improved durability and eliminates kinks
- **Low Profile Floor Tool** – 32mm industry standard fitting
- **Comfortable Harness** – designed for long periods of use with minimal fatigue to the user

Advantages

Power

36L/s Max airflow provides powerful suction for the toughest applications

Ergonomics

Lightweight and comfortable design for long periods of use with minimal fatigue

Convenience

1.5L Reusable filter bag

Power

3 Speed selection for optimum control of power and runtime
