Overview:

- pleasantly fragranced
- pH balanced
- multi-purpose soap
- sealed cartridge with pump included
- easy to load
- no spillage from topping up in dispensers
- no soap exposed to saturated shower conditions

Betasanmax hand, hair and body wash is an all rounder. A soap that's designed for hand hygiene and showering (hair/body wash).

It is a perfumed, pearly white, liquid soap with a fusion of shea butter and warm vanilla which has been specially blended to create a gentle cloud of creamy lather for a soothing hand washing and shower experience.

Dermatologically tested with a pH of 4.5-5. Our hand, hair & body wash is suitable for frequent use and sensitive skin.

Ideal for hotels/motels, gyms, sport clubs, and rest-homes with shower facilities.

A great option for those who prefer liquid over foam, and are wanting a perfumed option.

The patented sealed-until-installed pouch ensures that servicing and installation of the soap is quick, simple and contamination free.

Dispenses approximately 1000 shots per refill.

Can be dispensed using our automatic or manual soap dispenser.
