30 WATT RECHARGEABLE LED WORKLIGHT

Model No. PWL4111Y / PWL4111R

BEFORE YOU USE THIS DEVICE FOR THE FIRST TIME, PLEASE READ THE FOLLOWING NOTES IN THIS MANUAL AND HEED ALL WARNINGS, EVEN IF YOU ARE FAMILIAR WITH HANDLING ELECTRONIC DEVICES. KEEP THIS MANUAL IN A SAFE PLACE FOR FUTURE REFERENCE.

WARNING

To prevent serious injury or damage:

- DO NOT open, drop, short-circuit, incinerate, expose to temperatures higher than 140°F, or change/use if damaged.
- Only use the charging adaptors provided with the Work Light. Use of any other adaptors may damage the tool or result in a fire.
- Do not submerge in water or any other liquids for a long period of time.
- Do not operate in explosive atmospheres, such as in the presence of flammable liquids, gases, or dust.
- Do not charge the Work Light more than 8 hours. Overcharging will cause overheating and shorten battery life.
- Read warnings on the package before use.
- Do not shine directly into the eyes.

PRODUCT DESCRIPTION

Your new cordless rechargeable LED Work Light provides a safe and portable source of light when and where you need it. The unit is IP65 rated; therefore, it should not be submerged under water. It is ideal to use during automotive repair work, roadside emergencies, work around the home, camping, or during power failures.

Power Requirements	8.6V DC 2000mA
Battery Type	Internal, Rechargeable, Lithium-ion
Battery Pack	7.4V 8800mAh
Bulb Type	144 White LEDs
LED Life	100,000 Hours

OPERATION MODES

This rechargeable work light features 3 different light modes. You can select the suitable light operation mode for each application.

LOW - MED - HIGH MODES:

- Press the power switch once while the unit is opened; this will turn on both sides of the unit at 30% intensity with a maximum operating time of at least 7.5 hours on a full charge.
- Press the power switch twice while the unit is opened; this will turn on both sides of the unit at 100% intensity with a maximum operating time of at least 2.5 hours on a full charge.
- Press the power switch three times while the unit is opened; this will turn on one side of the unit at 50% intensity (power saving mode) with a maximum operating time of at least 5 hours on a full charge.
- Press the power switch four times to turn the unit off.

NOTE: THE CORDLESS RECHARGEABLE WORK LIGHT CAN ALSO BE USED WITHOUT THE TRIPOD, TO USE WITHOUT THE TRIPOD, SIMPLY OPEN THE UNIT AND PLACE IT ON A FLAT SURFACE (AS SHOWN BELOW).

RUN TIME

The approximate running times for this light when the battery is fully charged and at maximum performance level are as follows:

WORKING TIME

- 30% 7.5 Hours
- 50% 5 Hours
- 100% 2.5 Hours

USING THE TRIPOD

The cordless rechargeable work light comes with an adjustable steel tripod ideal for camping, job sites, home repairs, garage and more. The included adapter makes it easy to mount.

1. Screw the provided adapter into the top of the steel tripod.
2. Loosen the lever on the unit and insert the other side of the adapter into the bottom of the handle as shown above.
3. Tighten the lever on the unit to secure the work light.
4. Adjust the direction of the light by loosening the lever on the adapter and rotating it as needed.

CHARGING INSTRUCTIONS

THE RECHARGEABLE WORK LIGHT MUST BE FULLY CHARGED BEFORE BEING USED FOR THE FIRST TIME. IT IS RECOMMENDED THAT THE BATTERY BE RE-CHARGED EVERY 3 MONTHS TO ENSURE MAXIMUM PERFORMANCE IN AN EMERGENCY.

This will ensure that the battery gives its best performance now and on future re-charging cycles. The AC charging adapter is for re-charging the battery only. Always ensure that the light switch is in the off position while charging.

USING THE AC CHARGING ADAPTER:

1. Plug the AC charger into the charging port on the side of the unit below the on/off power switch. (Red charging LED indicator on AC charger will turn on)
2. Plug the AC adapter into a 120V outlet and switch on the outlet (if applicable).
3. The battery will be fully charged after approximately 5-6 hours. (Red charging LED indicator will turn green).
4. Disconnect the AC charger from the light and remove the adapter from the wall outlet.

NOTE: TO PREVENT OVERHEATING DO NOT CHARGE FOR MORE THAN 8 HOURS.

CHARGING INSTRUCTIONS

Use the 120V AC charging adapter indoors in a dry location only. Exposure to damp or wet conditions could cause a shock or damage to the adapter.

Do not use the charger near flammable liquids or materials.

Store in a dry location and do not allow the charging adapter to come in contact with water, rain, or snow.

If the charging adapter comes into contact with water, place in a dry location at room temperature, on a soft absorbent towel and allow to dry thoroughly.

Do not operate the unit until it is completely free of moisture.

Use only the AC charging adapter supplied with light. Do not attempt to charge the light with an adapter that is not compatible as this could result in a fire, damage to the light, or personal injury.

The AC CHARGING ADAPTER complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CARE AND MAINTENANCE STORAGE

Store the Rechargeable Work Light and charging adapter in a clean and dry area. Be sure to keep the charging adapter supplied with this product stored separately from similar items as only charging adapters included with this light are compatible. Using a non-compatible charger could cause damage to the light or personal injury.

The work light may also be stored in a vehicle for use in roadside emergencies. To prevent the light and any of the accessories from being damaged, please ensure that it is properly secure and in a safe place inside the vehicle. Make sure that the unit is fully closed with the lock on.

CLEANING

All exterior surfaces of the Rechargeable Work Light can be wiped clean with a soft cloth dampened with a mild soap and water solution. Do not submerge any part of light in water or any other solvent.

Never use solvents or cleaning agents containing petroleum (petrol, kerosene, oil), paint thinner, turpentine, alcohol, or ammonia. Harsh materials like these can damage surfaces.

MAINTENANCE

Only qualified service personnel must perform repairs. Do not open the exterior casing of the Rechargeable Work Light as there are no user serviceable parts inside. Opening or visible attempts to open or repair the light may void any guarantee and/or cause damage to the product or personal injury. LED bulbs will never wear out under normal conditions and do not need to be replaced. Rechargeable battery pack cannot be replaced.

This product contains an internal Lithium-ion battery pack formulated from environmentally sensitive materials. This product must be disposed of properly with due care for the environment. Please return this product to your local dealer or to your local recycling station where batteries will be recycled or disposed of properly.

MobilePower, LLC. Warrants to the original purchaser that this portable lighting unit shall be free from defects in material and workmanship for a period of one year from the original date of purchase.
