

# KROSSING SISTEMA A PARETE

Il sistema Krossing, una volta riempito tende a sparire lasciando il massimo spazio agli oggetti. Ideale come libreria per i libri di narrativa, in cucina per i bicchieri, tazze, barattoli e spezie, oppure in bagno per i profumi, oppure in camera dei bambini per esporre i giochi. È possibile comporre strutture dalla forma regolare oppure dalla forma più fantasiosa.

## FUNZIONAMENTO

Sistema a rete realizzato semplicemente con pianetti, tubetti in alluminio e box di legno. È studiato per contenere un gran numero di libri e oggetti con un ingombro minimo: 15 cm di profondità.

## FINITURE BASE

-  Alluminio anodizzato
-  Bianco opaco RAL 9010
-  Nero opaco RAL 9005
-  Rovere
-  Noce canaletto

## FINITURE SPECIALI

-  Sand Dunes Sabbia
-  Antracite opaco RAL 7022
-  Grigio goffrato RAL 7032
-  Verde opaco RAL 6003

Su richiesta, è possibile ottenere elementi su misura o RAL speciali a scelta.

# KROSSING COMPONENTI

## FINITURE STANDARD

■ Alluminio  
Anodizzato

□ Bianco opaco  
RAL 9010

■ Nero opaco  
RAL 9005

# KROSSING MANUTENZIONE

## ELEMENTI IN METALLO

Manutenzione ordinaria con detergente per piatti e un panno umido.

Sono severamente vietati prodotti a base di acetone, aceto o ammoniacca.

L'utilizzo di prodotti abrasivi per la pulizia: spugne abrasive e prodotti a base di creme abrasive o particolarmente aggressivi rischia di graffiare le superfici.

Le macchie di prodotti chimici come i profumi d'ambiente possono compromettere definitivamente le superfici.

## ELEMENTI IN LEGNO

Per la pulizia ordinaria è sufficiente una passata con un panno morbido o al massimo con un panno leggermente umido.

L'utilizzo di prodotti abrasivi per la pulizia (panni in microfibra, spugne per lucidare ecc...) rischia di graffiare le superfici.

Sono severamente vietati prodotti a base di acetone, aceto o ammoniacca.

Le macchie grasse di prodotti alimentari di origine animale o vegetale, le bevande e altri liquidi acidi possono compromettere definitivamente le superfici.

Il legno è un materiale vivo, caratterizzato da variazioni naturali a livello di tonalità e struttura, quindi l'incidenza della luce e dei raggi solari comportano normali variazioni di colore.

Le superfici sono sigillate da una vernice di alta qualità, è vivamente sconsigliato sottoporre il legno ad aria troppo umida o troppo secca. In caso contrario, il legno si deforma malgrado la vernice applicate.

# KROSSING WALL SYSTEM

Once it is full of books, a Krossing structure tends to camouflage and makes room to the items. This is an ideal structure for novel books; in the kitchen, to store glasses, cups, jars and spices; in the bathroom to store creams or in the kids bedroom, to display toys. This system allows to create either squared shaped structures or more fun and creative compositions.

## WORKING PRINCIPLE

Simple grid system composed of shelves, tubes and wood boxes. It has been designed to hold a high number of books and small items with a particularly low footprint of 15 cm.

## STANDARD FINISHES

-  Anodised aluminium
-  Mat white  
RAL 9010
-  Mat black  
RAL 9005
-  Oak wood
-  Walnut wood

## SPECIAL COLOUR

-  Sand Dunes  
Beige
-  Mat anthracite  
RAL 7022
-  Embossed gray  
RAL 7032
-  Mat green  
RAL 6003

On request, components can be custom-made or coated with a special RAL colour.

# KROSSING CLEANING AND CARE TIPS

## METAL COMPONENTS

For regular cleaning, use a dish detergent and a wet cloth.

Do not use products that contains acetone, vinegar or ammonia.

Do not use abrasive sponges or cleaning creams that can scratch the surfaces.

Chemical products such as room fragrances can create stains that can permanently damage the surfaces.

## ELEMENTI IN LEGNO

For a regular cleaning use a smooth cloth (wet or dry).

Do not use products that contains acetone, vinegar or ammonia.

Do not use buffers or microfiber clothes that can scratch the surfaces.

Fat stains of vegetal or animal origin and acid liquids such as sodas can permanently damage the surfaces.

Wood is a living material that has natural color and grain variations. Lights and sun rays create color variations over the time.

Surfaces are sealed with a high quality coat. We recommend to not expose the wood components to a too dry or too wet air. Otherwise, and in spite of the coating, the wood pieces could deform.
