BODY FIT

Body Fit is an effective mixure of lipoactive and active ingredients to treat fat deposits, skin laxity, cellulite, stretch marks and body reshaping.

Main ingredients: L-Carnitine - Caffeine - Centella Asiatica - Hyaluronidase - Rutin & Melillot

5mi viais

SLIMMING - TONING - RESHAPHING

DMAE

A firming solution that provides an instant lifting effect, while defending skin against free radicals and simultaneously infusing it with moisture.

DMAE results in a cholinergic stimulation of membrane receptors of fibroblasts and stimulates progressive concentration of the myofilaments of its cytosol.

5ml Ampoules LIFTING - HYDRATION - ANTI-RADICALS

PHOSPHATIDYLCHOLINE

A strong or poweful Lypolitic solution acting by breaking down and dissolving the fat stored in fat cells (adipocytes).

PPC Induces an enzymatic reaction which helps with the dissolution of fat by producing an emulsion of nano-size monoglycerides that is transported into the liver and metabolized by beta-oxidation.

FAT MELTING ACTION - LIPOSUCTION CORRECTION - BODY CONTOURING

SILICIUM

Silicium is a Regenerating Solution that smoothes, tones and lifts the skin, slowing down the ageing process. Restores strength, flexibility and elasticity to the collagen and elastin of connective tissues.

Silicium binds moisture in the epidermis thus filming and strengthening the skin. It is also known to act as an antioxidant preventing the acceleration of premature ageing.
