BETWEEN 3ANC

USER GUIDE

You made an excellent choice.

Your Between 3ANC Earbuds:

- Contain a 10mm Dynamic Driver + 2x Balanced Armature Drivers (in each earbud)
- Have hybrid active noise cancelling
- Have a transparency mode (to hear your surroundings)
- Connect via Bluetooth 5.2 to virtually every modern phone, tablet, computer, and television
- Have 6x external microphones, providing unparalleled call quality
- Are backed by Status Audio's 30 day performance guarantee + 1 year warranty

Charge

The Between 3ANC arrive with some juice, but we highly recommend you charge to 100% before initial use.

First things first: Place the earbuds inside the case.

Charging with the included USB-C cable:

Plug the USB-C cable into the back of the charging case. Then plug the USB-A side into a power source.

See those LED lights flashing? You are now charging.

Wireless Charging

The Between 3ANC support wireless charging. Simply place the charging case on a wireless charging pad in their normal "standing" position, and charging will begin.

If charging does not begin, make sure the case is centered on the charging pad.

Operate

Open the case and remove the earbuds.

This will automatically put the buds in "pairing" mode, which means they are ready to connect to your device(s)!

Now go to the Bluetooth Menu on your device.

"Between 3ANC" should be listed in your Bluetooth Menu. If it isn't, just give it 5-10 seconds to appear.

Still nothing? Turn Bluetooth on and off on your device.

Select "Between 3ANC", and the earbuds will connect. You'll hear an audio prompt from the earbuds confirming the connection.

You are now connected.

The image to the right shows a smartphone, but you can connect the Between 3ANC with any Bluetooth-enabled device: smartphones, tablets, computers, televisions, and more.

More on Bluetooth Pairing

Bluetooth pairing can be confusing, and trip up even the most seasoned technophiles. So don't get frustrated, we will work through this together.

First thing to know:

Once you successfully pair the Between 3ANC to a given device (say your smartphone or computer). It will remember this device FOREVER. It will automatically pair when you open the case (provided the source device is turned on and in-range).

Are you still having problems?

Pairing procedures can vary depending on your device. So if you are attempting to pair the Between 3ANC, to say, a Samsung Galaxy S20 - you should google: "Bluetooth Pairing Samsung Galaxy S20".

And if you are still having problems, email us at contact@status.co

Getting the right fit

The Between 3ANC are designed to fit snugly in your ears.

They should achieve an airtight seal, and stay in your ears even during high-intensity movement.

We include 3 different silicon "fit-wings":

Size 1

Size 2

Size 3

Size 1 comes pre-installed on the earbuds. If the fit is not secure enough, feel free to size up.

This is how they should look:

Controlling the Between 3ANC

Physical Buttons:

Function	Left Button	Right Button
Active Noise Cancelling	Short tap (either side is OK)	
Transparency Mode	Short tap (either side is OK)	
Voice Assistant	Double tap (either side is OK)

And a touch control surface on each of the earbuds:

Controlling the Between 3ANC (cont'd)

Powering on and off:

Removing the buds from the case automatically turns them on.

Putting the buds back in the case automatically turns them off.

Manual Power On/Off + Reset

To manually power on and off the earbuds, hold both left and right buttons simultaneously.

To perform a full reset, hold the button on the backside of the charging case for 10 seconds while the case is open.

The Between Smartphone App

What it does:

The Between app allows you to customize the equalization settings, save custom sound profiles, toggle listening modes, and receive over-the-air firmware updates

How to download the app:

Scan the QR code below with your smartphone:

Safety Information

Warning!

Continued exposure to loud noise (more than 85 decibels)(85 dBA) may cause gradual but permanent damage to hearing.

Always turn the level of your source down to a low level before placing the headphones on your ears. Gradually turn up volume until you achieve a comfortable level. Never listen at high volumes for long periods.

Do not tamper or disassemble the headphones, as doing so will void the warranty. Besides removable ear-pads, there are no user-serviceable parts inside.

Be aware of your surroundings. Do not use headphones when it is unsafe to do so, for example when operating a vehicle, crossing the street, or any activity requiring you to pay attention to your surroundings.

For more information about safe listening and hearing health, please visit the Hearing Health Foundation at: hearinghealthfoundation.org.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
