Window

Width –
Timber to Timber
Height –
Timber to Timber.

Note:

- Always measure from the inside.
- Remove internal trim around the door / window to reveal the timber frame.
- Reduce the 'tight' sizes by 5mm on windows and 3mm on doors for manufacturing size to allow for clearance.

WhatsApp for help / advice: 07801 890 940

Door

Width –
Timber to Timber
Height –
Timber on the top
down to the floor
level. (pull back
carpet if necessary)

Please Note : When drawing window & door design, please use arrow pointing to the hinge side, i.e opposite to the handle. Please draw windows and doors viewed from **outside** below.
