

## **TECHNICAL DATA DARANÀ©**

Issued on 06/05/2015 - Rev. n. 1 del 11.03.2022

### **Product features:**

Daranà© is not a paint and as such it does not appear on the market with the traditional packaging in a tub typical of a paint product. It is an absolute innovation in the field of decoration allowing you to reproduce a metal effect. Its innovative structure allows you to decorate any type of surface, such as walls, ceilings, furniture, furnishing accessories which can be enriched with this easy to apply finish. DARANÀ© is the combination of science and innovation.

### **Preparation of the substrate:**

We recommend applying Daranà© on substrates such as Cemento 3D and/or PanareaStone.

### **Daranà© application method with Decor Finish protective finish:**

The Daranà© application method consists of three steps;

1. Apply Decor Fix primer using a brush and/or a roller on the surface to be decorated. Spread the Daranà© foil on the newly applied Decor Fix primer. For perfect adhesion of the Daranà© foil it should be smoothed with a cloth or a slightly damp sponge. Continue in this way over the entire surface.
2. After approximately 2 to 3 hours remove the Daranà© foil leaving the metallic surface behind.
3. Apply a single coat of semi-gloss Decor Finish using a brush and taking care to cover the previously created texture so as to enable the surface to be washable.

### **Daranà© application method with ProteKto EcoSilan protective finish:**

The Daranà© application method consists of three steps;

1. Apply Decor Fix primer using a brush and/or a roller on the surface to be decorated. Spread the Daranà© foil on the newly applied Decor Fix primer. For perfect adhesion of the Daranà© foil it should be smoothed with a cloth or a slightly damp sponge. Continue in this way over the entire surface.
2. After approximately 2 to 3 hours remove the Daranà© foil leaving the metallic surface behind.
3. Apply a single coat of ProteKto EcoSilan using a brush and taking care to cover the previously created texture. Allow the product to rest for about 10 to 15 minutes (the length of time may be longer or shorter depending on the ambient temperature and/or time of year). Gently clean the surface using a soft cotton cloth.

## Useful tips:

- Do not touch Daranà© before the product is protected. The metals contained in the product could be altered and spoil the surface.
- Do not apply Daranà© on substrates that are still damp. Damp will cause the product to wrinkle, crack, form strips or lift from the substrate.

## Technical data:

Daranà© coverage: 18 m<sup>2</sup> variable according to the application textures

Daranà© size: 150 mm X 122 ml

Color: Silver, Gold (various colours on request)

Kit packaging: 1 roll of Daranà© foil + 1 Decor Fix It 2,5 + 1 transparent protective

Do not apply the product at temperatures below +5°C and above +35°C.
